Board okays contract with CUPE workers

Haliburton County Board of Education ratified a two-year agreement with its care-takers, secretaries and cafeteria staff last Thursday that will give the employees wage increases totalling \$1 an hour over the next year and a half.

The agreement was worked out between the boards negotiating committee, and the employees who are members of local 142 of the Canadian Union of Public Employees, with the aid of a conciliator, after talks between the two sides broke down last month. It marks a return to the two-year contracts that were common before the Anti-Inflation Board was set up in 1975.

Basic rate of \$4.87 an hour for the 31 full and part-time employees covered by the agreement will rise to \$5.37 an hour retroactive to January 1. The 50 cent an hour increase includes an 11 cent "catch up" to bring the workers up the same basic pay level as Dysart et al labourers, who are also members of CUPE.

Jim Leworthy, business administrator for the Board, said Monday that the basic pay rate for Dysart and Board employees had been the same for a number of years until the formation of the anti-inflation board. The Dysart employees negotiated a new contract in 1975, while the Board employees were working under the second year of a two-year agreement. Board Employees feel behind at that point, and have not caught up until the present agreement.

The new contract calls for a further 30 cent increase on January 1, 1980, bringing the base hourly rate to \$5.67, and a final 20 cents an hour July 1, 1980.

Only two of the 31 CUPE member employees receive a basic pay rate in excess of the

Cont'd. page 2

First aid is a handy thing to know especially in an area catering to recreation. The Haliburton Brownies were enlightened in first aid skills when they were visited Monday by Haliburton Ambulance Services. Ambulance attendant, Gerry Wood, helped Emma Postlethwaite properly fit a bandage to the left leg of Michelle Sawyer. The Brownies will be instructed in first aid several times before spring.

lance attendant, Gerry Wood, helped Emma Postlethwaite properly fit a bandage to the left leg of Michelle Sawyer. The Brownies will be instructed in first aid several times before spring.

Board of Education approves budget of \$4,805,785, up 3.8% over last year

The Haliburton County Board of Education has approved a 1979 budget of \$4,805,785, up \$177,245, or 3.8 percent over last year's \$4,628,531 budget.

Approval of the new budget came at a day long meeting of trustees and board administrators last Thursday.

Last year's budget represented a 7.9 percent increase over the 1977 budget, and resulted in levy increases to

the municipalities averaging 12.7 percent. The difference was the result of changes in assessment and a cutback in provincial grant support to the Haliburton Board.

Though levies to the municipalities for the portion of the this year's budget not covered by provincial grant support have not yet been determined, it is expected that municipalities will once more be called upon to pay levies

greater than the percentage increase in the budget.

Levies are expected to be set at the board's March 20 meeting.

Last year's provincial grants to the board were down to an effective rate of 33 percent on ordinary expenditures in the secondary school and to 40 percent in the elementary schools under the Haliburton Boards jurisdiction.

In 1974, according to the board's business administrator Jim Leworthy, provincial government grants met approximately 63 1/2 percent of education costs. This year, government grants for all purposes, including those for extraordinary expenditures, will amount to between 51 and 53 percent of the total budget. The difference between falling grants and rising expenditures has had to be made up by the taxpayer, resulting in levy increases greater than the percentage increase of board budgets.

Leworthy said Monday that the 3.8 percent increase has to be seen in the light of inflation, currently running at about 9 percent. "We're really holding it down more than it appears at 3.8 percent," he said. Main increases in the budget are for salaries, which account for about 70 percent of total expenditures, transportation costs which take up another 13 percent, and for heating and electricity costs.

The budget includes an amount for increases in teachers salaries, which will be negotiated again later this spring, and for an increase in the cost of transportation. Northern Ways Transit, who currently hold the transportation contract with the board, are asking for an increase of 10 percent plus a gas price escalator clause.

The matter is scheduled to be negotiated at the board's next regular meeting March 20. Increase for teaching salaries has been held down as a result of declining enrolment that will necessitate a reduction in the board's teaching staff, Leworthy said. Nine of the approximately 100 teachers employed by the board are expected to lose their jobs this year as a result of declining enrolment.

The reduced number of pupils also results in a reduction in the amount of Haliburton Board must pay to other boards for students in the Dorset and Cardiff areas who live in the county but who attend schools in other counties, according to Leworthy. No cutbacks in policies or

West Guilford Snow Shuffle raises close to \$900 Saturday

Wet snow and less than ideal trail conditions didn't dampen the enthusiasm of a large group of snowmobilers who took part in the first annual West Guilford recreation centre Snow Shuffle Saturday.

Organizers say more than 50 machines turned up to make the ride from the centre to Kennis Lake and back.

Carol Duncan, chairman of the recreation centre committee, called the response to the day "unbelievable".

Close to \$900 was raised by the event, which included a supper in the centre, with food donated and served by local residents, and a dance in the evening.

"It was a real effort on everybody's part," Duncan said, in expressing her appreciation for the response the event drew from West Guilford residents.

"It's great to have such a result from it."

The money raised Saturday will be added to a fund for renovations to the centre, a

former school owned by the Municipality of Dysart et al. Repairs will be funded by Wintario, a grant from the municipality, and by money raised by the recreation centre committee.

Nearly \$5,000 has already been raised, and the committee has set a target of between \$6,000 and \$7,000.

Duncan said Monday that the event, and the response it generated, was "one of those things that make you happy to be in the community."

At those levels, acid rainfall has the potential to decrease the productivity of forests over a long period of time, Dr. Freedman said. It also causes lakes to become increasingly acidic, a phenomenon that has been occurring steadily in Haliburton County and other precambrian rock areas since the 1950s at least.

When acid rain runs into lakes with a high natural ability to neutralize acid, such as the lakes in the Kawartha, damage to the lakes ecosystem is minimal. But when it runs into hard rock lakes with little potential for neutralizing the acid, such as those in precambrian shield areas of the province, acid levels continue to build up. At high enough concentrations, the acidity can effect the ability of fish to reproduce, causing the lakes to "die".

Ironically, acidification of lakes actually increases their clarity, Dr. Freedman explained, and more importantly, presents no danger to human or animal populations.

Its effect on sport fishing, however, can be devastating. Sulphur dioxide accounts for between 50 and 80 percent of the acidity present in rainfall, Dr. Freedman said. Main sources of the sulphur dioxide are power plants, especially those that burn coal, and various industries, including metal smelting operations.

Acid rain, he said, is a regional problem with roots throughout Ontario and the north eastern United States. It occurs when rain mixes with sulphur dioxide and nitrous oxide present in the atmosphere, and forms mild sulphuric and nitric acid.

Natural rainfall is slightly acidic, having a Ph (measure of acidity) of 5.65. An "acid precipitation event" occurs when the Ph of rainfall or snowfall has a Ph of 4.5. In this region of Ontario, Dr. Freedman said, the average Ph of rainfall is 4, and acidity levels is high was Ph 2.9 have been recorded.

Dr. William Freedman, an associate professor of Botany at U. of T. told a meeting of the Haliburton County anti-pollution committee last week that up to 50,000 Ontario lakes will become acidified due to industrial and automobile pollution.

Dr. Freedman told about 70 people who attended the meeting in the Minden council chambers last Wednesday that acid rain has been falling for centuries, but that only in recent years has the problem reached significant and damaging levels.

Dr. Freedman outlined five aspects of the acid rain problem that are of particular concern to the region.

Firstly, he said, up to 50,000 lakes will be potentially effected by acid rain in Ontario.

Secondly, though Sudbury is a significant source of sulphur dioxide pollution, there was no measurable change either in Ph or frequency of acid rainfall when the smelters were shut down over an extended period due to a strike.

Studies of storm tracks indicate that most acid rainfall events originate in the north eastern United States, Dr. Freedman said, making acid rainfall an international rather than a provincial problem. Indeed Sweden, which has suffered the effects of acid rain, has claimed that some of the acidity which damaged thousands of its lakes originated in the United States, Dr. Freedman said.

Fourth point, the U. of T. professor stressed, is that the use of coal is likely to increase over the next 20 years because of an increasing demand for electrical power and growing pressure against the construction of

nuclear reactors. Outputs of sulphur are therefore likely to increase rather than decline in the near future.

Fifth point is that the problem of acid rain is extremely complex, and that scientists "don't necessarily understand what causes it and what effects it has."

Finding the answers will require much more research effort and many more research dollars, Dr. Freedman emphasized.

Solution to the acid rain problem falls into two parts, according to Dr. Freedman.

Firstly, since it is an international problem it will require an international solution. Large amounts of money, perhaps tens of billions of dollars, will have to be spent "to develop technology and buy equipment to control sulphur output," he said.

Cont'd. page 2

50% of Haliburton lakes could become acidified U. of T. scientist claims

A University of Toronto scientist confirmed last week that at least half of the lakes in Haliburton County and other precambrian rock areas of the province will become acidified over the next 20 years, and that little can be done to stop the process.

Dr. William Freedman, an associate professor of Botany at U. of T. told a meeting of the Haliburton County anti-pollution committee last week that up to 50,000 Ontario lakes will become acidified due to industrial and automobile pollution.

Dr. Freedman told about 70 people who attended the meeting in the Minden council chambers last Wednesday that acid rain has been falling for centuries, but that only in recent years has the problem reached significant and damaging levels.

Dr. Freedman outlined five aspects of the acid rain problem that are of particular concern to the region.

Firstly, he said, up to 50,000 lakes will be potentially effected by acid rain in Ontario.

Secondly, though Sudbury is a significant source of sulphur dioxide pollution, there was no measurable change either in Ph or frequency of acid rainfall when the smelters were shut down over an extended period due to a strike.

Firstly, since it is an international problem it will require an international solution. Large amounts of money, perhaps tens of billions of dollars, will have to be spent "to develop technology and buy equipment to control sulphur output," he said.

Cont'd. page 2

Major source of nitrous oxide, which forms mild nitric acid in combination with water, is automobiles, trucks, and other vehicles using internal combustion engines.

Recently, Dr. Freedman said, the problem of acid rain has become very widespread, and it is spreading every year. Pollution that results in acid rain can travel 1000 miles from its source before it combines with water, and some emissions have been known to travel up to 3000 miles in the atmosphere.

Dr. Freedman outlined five aspects of the acid rain problem that are of particular concern to the region.

Firstly, he said, up to 50,000 lakes will be potentially effected by acid rain in Ontario.

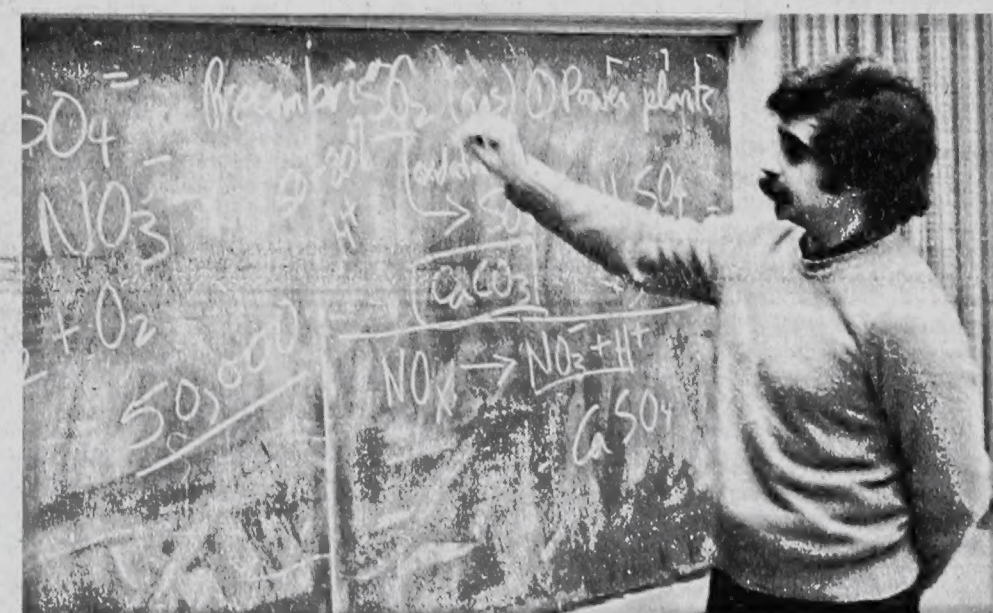

Secondly, though Sudbury is a significant source of sulphur dioxide pollution,

Dr. Bill Freedman, an associate professor of botany at the University of Toronto, made use of the blackboard last Wednesday night in Minden as he described the causes and effects of acid precipitation. His talk came at a public meeting called by the Haliburton County Anti-Pollution Committee.

Area youths charged with breakin

Three Wilberforce youths are scheduled to appear in Minden provincial court next Tuesday to face charges of break, enter and theft in connection with an incident at Bucksin Lake landing.

Minden OPP report that a shed owned by Henry Collins of Gooderham and used by cottagers on the lake, was broken into sometime between February 4 and February 14.

Snowmobiles owned by Gordon Boutillier of Mimico

and Richard Humpries of Scarborough were reported missing when the breakin was discovered February 14. Boutillier's snowmobile was recovered, but Humpries is still missing.

Police set the value of the two machines at \$800.

Charged in connection with the incident are W. S. Rivers, 16, Mark C. Kennedy, 16 and a 15-year-old juvenile, all of Wilberforce.

In an unrelated incident, property valued at \$1,987, was stolen some time be-

tween February 11 and March 3 by thieves who broke into a cottage on Little Redstone Lake.

Raymond Cockell, of Unionville, owner of the cottage, told police that an amplifier, tape sets, a turn table, speakers, rifle, liquor, records, tapes and electric tools valued at \$1,987 had been taken.

Thieves forced open a door to gain access to the cottage, causing \$50 damage.

The theft remains under investigation.

Extensicare residents, guests, mark homes' third anniversary

Earl Cooper played the bagpipes Friday at Extensicare, Haliburton as the home marked its third anniversary.

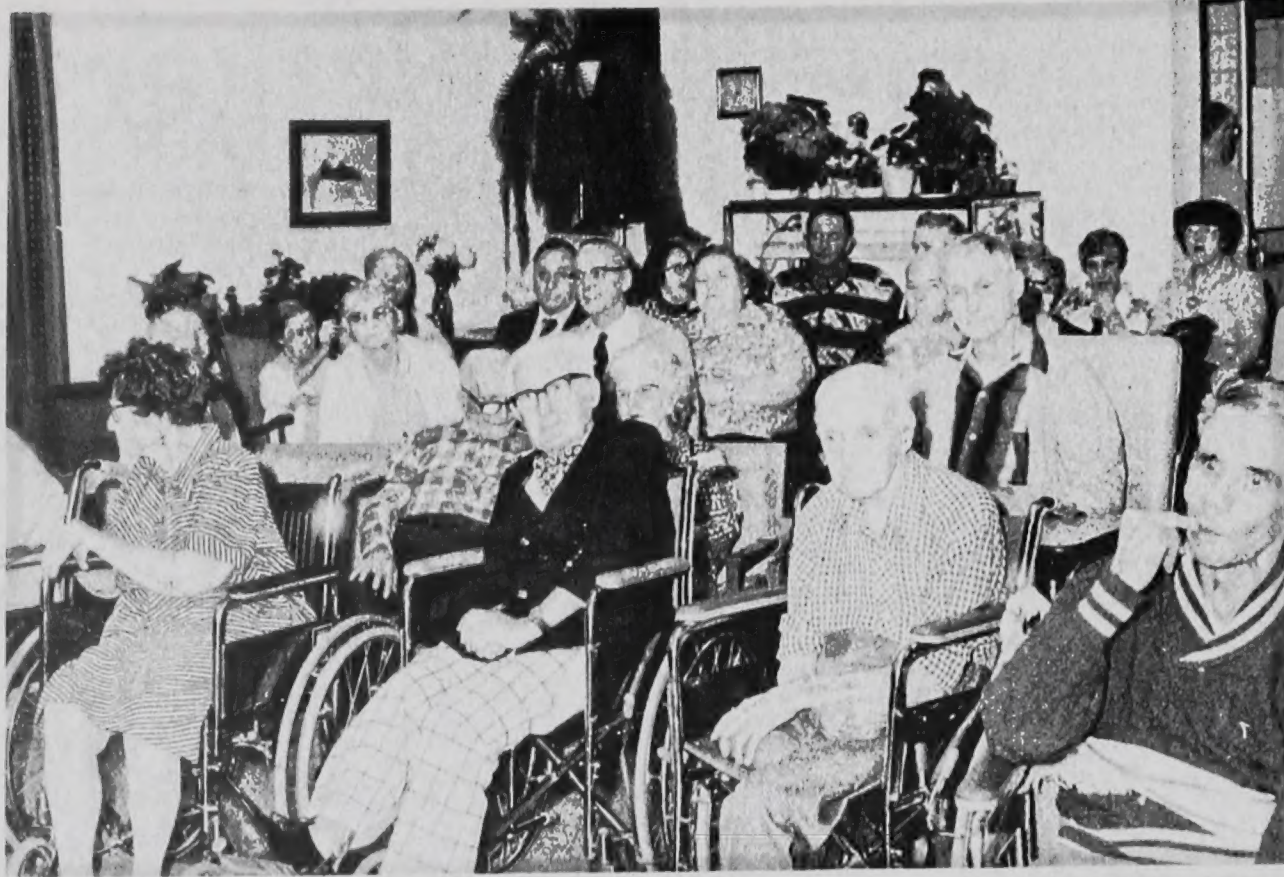

More than 80 guests were on hand Friday evening when Extensicare, Haliburton marked the third anniversary of its official opening. Among those who took part in the celebration were County Warden, James Harrison and Dysart et al Reeve Murray Fearrey, who looked on as Extensicare resident Mrs. Myrtle Pritchard blew out the candles on a cake to mark the anniversary.

Also featured at the evening were a gymnastics demonstration by Haliburton Highlands Secondary School students, Elizabeth Langdon and Cindy Hore, the bagpipe music of Earl Cooper and Highland Dancers, Norma Williamson, Mary Packard, Peter Neville, Alan Cooper, Eleanor Cooper, Gerard Feltham, Kathleen Owens and Judy Precor.

Al Blanchard and his group also provided musical entertainment for the evening, which concluded with a light lunch.

Proceeds from last Saturday's Snow Shuffle rally will go towards renovations of the West Guilford Community Centre. Leroy Lichty, one of the participants, passes a point about 3 miles into the run. More than 50 snowmobiles turned up for the rally which took participants to Kennis Lake and back. A dinner and dance were held later.

Residents of Extencare and more than 80 guests enjoyed a party last Friday to mark the home's third anniversary. Entertainment for the evening included a gymnastics display, bagpipe music, Scottish dancing,

and Al Blanchard's music. County Warden, James Harrison and Dysart et al Reeve Murray Fearrey were among those who took part in the festivities.

Named after prominent Haliburton hockey player and coach

Glen Dart Tournament goes Saturday

Teams from Haliburton County, Bobcaygeon and Millbrook will head for the Dysart arena Friday and Saturday to compete in a tournament which honours one of Haliburton's best known players and coaches.

The Glen Dart Memorial Hockey Tournament will feature action in every division from Tyke through Bantam.

On Friday at 6 p.m. Haliburton will meet Minden in the Tyke division.

On Saturday, play will resume at 9 a.m. when Haliburton Novice and Minden Novice face-off for the first game in a full day of hockey. At 10 a.m., Haliburton Novice will meet Wilberforce and at 11, Haliburton #2 Atoms will square off for a game against Wilberforce.

The 12:15 matchup will see Haliburton #1 Atoms take on Bobcaygeon. At 1:30, action will switch to the Pee Wee division, as the Haliburton

Pee Wees face Millbrook. Final game of the day is a Bantam contest that will see a team from Haliburton challenge a team from Wilberforce.

The Glen Dart tournament has been an annual event since 1952, in Haliburton, the year after the death, at age 31, of the man for whom it is named.

Glen "Bimby" Dart was an avid hockey player who played all his minor hockey in Haliburton. Eventually he went on to make the Toronto Native Sons of the OHA Junior A league, but returned to Haliburton to work in his father's bakery in the village.

The second world war saw him join the airforce, where he continued to play hockey, in Belleville, and for the Moncton, N.B. Hawks.

When the war ended Glen Dart returned to Haliburton Village, and to the Huskies, for whom he had played before joining the airforce.

Subsequently he was named recreation director for Dysart et al, and in that position, spent a great deal of time coaching and instructing youngsters in the fundamentals of the game he loved.

Those who knew and were coached by Glen Dart remember him as a man who coached without harsh words and who emphasized gentlemanly conduct both on and off the ice.

The tournament which bears his name brings youngsters together to test their skills in the game Glen Dart cherished.

Spectators are urged to take an hour or two to attend the Dysart arena Friday or Saturday to cheer for their favourites.

Board sets '79 budget

from page 1
services will result from the new budget, Leworthy said.

The issue of levies for school board budgets has been a contentious one in the past, with a number of municipalities protesting their apportionment before the Ontario Municipal Board. To arrive at a grant rate, the government uses an "equalized assessment factor" which has been frozen since 1970, but which is slated to be re-examined this summer.

CUPE workers

from page 1
\$5.37 rate although employees with additional responsibilities, such as head caretakers, receive hourly bonuses under the terms of the contract.

If the 11 cent catch up portion of the increase is not taken into account, the new contract amounts to a 7.6 percent increase this year and a 7.1 percent increase next year, according to Leworthy.

The equalization factor is intended to bring everyone across the province to a common assessment base to which a mill rate can be applied, with grants paid on the shortfall between levies and expenditures.

In Haliburton County, where there are a large number of cottages, the assessment is high, and the effective grant rate is therefore low.

According to the province, apportionment must be based on the ratio between equalized assessment in the local municipality and the total equalized assessment across the county. The system has resulted in inequities which some municipalities have protested year after year, occasionally successfully.

The freeing up of the equalization factor in July could result in apportionment changes for some municipalities, Leworthy said.

Levies are expected to be announced following the board's March 20 meeting.

Council wants bank for Gooderham

The Glamorgan Township Council has decided it wants to see banking facilities and an LCBO store in the hamlet of Gooderham, and at a meeting February 20, council passed a resolution to that effect.

Council is expected to pursue the matter in the coming months.

In other business at the meeting, the 1979 road programs for initial subsidy allotment in the amount of \$49,400 and supplementary

subsidy in the amount of \$16,000, as submitted by the road committee were approved for submission to the Ministry of Transportation and Communications.

Road Superintendent, James Manley's winter control duties as outlined to council were approved.

The Road Superintendent was authorized to purchase telephone answering service equipment to be installed at the Township garage at a price of \$310.

Representatives from Totten, Sims, Hubicki Associates Ltd., Greer Galloway Group and Cambrian Planning Consultants were requested to meet with Council and the Parks and Recreation Board on the morning of March 5 to discuss their feasibility study proposals.

Bylaw 79-8, a bylaw to dispose of lands no longer required for municipal purposes and bylaw 79-9, a bylaw to write off taxes were passed.

Totten, Sims, Hubicki Associates Ltd. were directed to amend the draft restricted area bylaw in accordance with council's instructions, given verbally on January 18, 1979 and as set out in correspondence from John McDermott dated February 8, 1979.

An earlier meeting, February 7, the following matters were considered:

General voucher of \$8,036.69, road voucher of \$9,061.33, and welfare payroll 79-1 of \$1,183.91 were approved for payment.

The Road Superintendent was authorized to proceed with the design of steel culvert for the 10th Concession, regarding the replacement of the wooden bridge.

The Township will assume the deed for Wolfe Lake Road from the 6th Concession north to where present maintenance is carried on at present, council decided.

Consultants Totten, Sims, Hubicki, were authorized to retain a local Ontario Land Surveyor to prepare the legal plan and description of the

footbridge at the park at an estimated cost of \$900.00.

Council gave the Fire Chief the authority to purchase a water tank from M.I.T. Ltd. for the price of \$6,240., with part payment February 7, 1979 of \$3,120.00 and final payment when finished.

Council also decided to enter into an agreement with the Township of Snowden as outlined in a letter dated January 24, 1979 by G. Wynne, Clerk-Treasurer, Municipality of Snowden, with respect to waste disposal.

Council also decided to write the Ministry of Housing to authorize and subsidize the environmental concern in the completion of the zoning bylaw.

Lakes will acidify

from page 1

Secondly, Dr. Freedman said, the public sector, including the government, will have to spend large sums of money on liming programs to neutralize acidic lakes. "Until we stop pumping out acid into the atmosphere."

Though acid rain has no effect on human health, it can effect structures, causing them to crumble away, a phenomenon that has been occurring in Europe in recent years, Dr. Freedman said. And while it doesn't effect animal life, it may have detrimental effects on plant life over the long term.

But the single most devastating effect of acid rain is on fish populations. In many parts of the world, Dr. Freedman said, entire fish populations of fresh water lakes have been wiped out.

Much of the damage to fish populations occurs in the early spring, Dr. Freedman said, when heavy accumulations of snow runoff raise the acidity of lakes at the time when fish are spawning. High concentrations of acid are

also thought to affect the amount of heavy metals such as mercury in fish, although how it does so is not yet known.

At the moment, Dr. Freedman said, the technology does exist to precipitate large amounts of sulphur out of smokestack emissions, but its cost is prohibitively high.

He expressed confidence, however, that technological advancement will bring the cost of pollution control devices down, making it possible for industries to install the equipment.

Studies are scheduled to continue on the acid rain problem in Haliburton County and other areas of the province over the next few years, although Dr. Freedman stressed that no immediate solutions would be found.

Owl stayed 5 weeks, then disappeared

Owls, as most people know, are nocturnal creatures, seldom seen in daylight and seldom found in close proximity to people.

But, as Joe Taylor of RR 2, Haliburton discovered last summer, there are exceptions to the rule.

"In our garden one day last August," he says, "we glanced on the roof of a small building and saw what we at first thought to be a monkey. However, a closer examination revealed that it to be a large owl, and being that it was full daylight, this surprised us. We were able to see him on most days for the next five weeks. He was unimpaired of our presence, for he would fly from post to post or building to building, frequently flying down to pounce on a choice grasshopper or unwary mouse, and many times adopting that post that made him resemble a monkey."

"He was about 17 to 18 inches long with a wingspan of three feet which enabled him to fly almost silently."

"We examined our bird book and found him to be the 'Barred Owl' with speckled brown feathers."

"I was able to take a number of pictures of him," Joe Taylor says, "being able to get from four to eight feet away. A number of our friends saw him and marvelled at his tameness. This probably was his undoing, for when he failed to appear at the end of September we assumed that some night predator such as a fox or a racoon had got him, but we were never able to find out."

The picture of the owl above was taken with a normal lens on a 35 mm. camera at a distance of between four and five feet," according to Mr. Taylor.

Council okays agreement with workers

The collective agreement for the years 1979 and 1980 between the Provisional County of Haliburton and the Canadian Union of Public Employees was ratified when County Council held its February meeting.

In other business, Meredith Amm was appointed along with Major G. Lewis to the Children's Services Committee.

Mrs. Richard Kirkwood addressed Council on the proposed Library-Museum complex which would provide a permanent art gallery for the Andre Lapine Collection bequeathed by the late Frank Welch. A brochure with details of the complex was circulated.

Mrs. Carol Finn reported to Council on the renovation and restoration program by the Haliburton Highlands Guild of Fine Arts to utilize the old C.N.R. station to provide the larger accommodation required for the Guild projects. A brochure was distributed along with a report of 1978 activities and the proposed 1979 budget.

Health Unit representative Keith Tallman outlined the proposed 1979 budget which is slightly increased and

reported on developments in composition of the Health Unit. A report will be submitted to County Council for discussion prior to any action being taken for revision.

Mr. C. L. Hamilton, Agricultural representative for Victoria-Haliburton, told members of Council about the many experiments being carried out in the county to improve soil structure and pasture renovation, with experimental plots of silage corn, alfalfa, and blueberries, and limed hay fields. He also outlined benefits being derived by having a veterinary in the county for large animals.

Members of County Council expressed appreciation for the interest and cooperation received from Mr. Hamilton.

Mr. Bud Kirchner, President of the Haliburton County Livestock Producers Association, reported to Council on 1978 activities of the association supported by a financial statement, and discussed future plans.

Mrs. Belinda Brown and Mrs. Sonya Holliday-Rhodes attended Council on behalf of the Haliburton County Anti-Pollution Committee, and

Mrs. Brown addressed Council, pointing out to the group's concerns of threat to the environment particularly from oil and pesticides.

County Council recessed at 12:15 p.m. for luncheon and a tour at Hyland Crest Senior Citizens' Home.

Members of County Council reassembled at 2:00 p.m. Hyland Crest Committee of Management Chairman Robert Vick reported on Hyland Crest activities and management.

The Property Committee Chairman Mac Peters, explained the proposed 1979 budget as circulated, all details having been considered at a meeting Tuesday evening, February 20.

County Library Board member Carmen Coumbs, confirmed the reappointment of Roy Brohm as Chairman for 1979. The Budget Meeting has been scheduled for March 6.

Children's Aid Society representative, Chesley Noseworthy reported he had attended two meetings of the society, and circulated a brief with breakdown of costs. He explained in detail the operation of the Society and the composition of representa-

tion. The 1979 budget will be released next week.

Bylaw No. 1061, a bylaw for the purpose of confirming bylaw 79-2 of the Municipality of Dysart et al to close a portion of the original allowance for road between Lots 30 and 31, Concession IV, in the Township of Guilford, was passed.

Bylaw No. 1062, a bylaw for the purpose of confirming bylaw 79-3 of the Municipality of Dysart et al to close a portion of the original allowance for road between Lots 5 and 6, Concession IV, in the Township of Dysart, was passed.

Bylaw No. 1063, a bylaw for the purpose of confirming bylaw 79-4 of the Municipality of Dysart et al to close and lease a portion of Victoria Street, town plot of the Village of Haliburton in the Township of Dysart, was passed, as was.

Bylaw No. 1064, a bylaw for the purpose of confirming bylaw 79-5 of the Municipality of Dysart et al to close and

lease a portion of the original allowance for road between Concessions VII and VIII, across Lot 18, in the township of Dysart was passed.

It was reported by Steering Committee representative Keith Tallman that in addition to two Council representatives sitting on the Children's Services Committee for the area which includes Victoria, Peterborough County, Peterborough City and Northumberland County, there would be one non-council member.

County Council decided to appoint Glen Hodgson as the County representative to Children's Services for the years 1979 and 1980. Voting against the resolution were: C. Noseworthy, R. Gambell and Major G. Lewis.

The Warden and Clerk were authorized to sign a consent form allowing the Haliburton County Snowmobile Association to use the name 'Haliburton County' in their incorporated name without any liability to the

County. A letter will be kept on file from the County's solicitor confirming this position.

The development of snowmobile trails in the Sherborne area with links to trails to the south was discussed.

Members of council dis-

cussed revised equalization factors to be released in July, and implication on assessment and grants without market value being introduced.

The regular February meeting of County Council was adjourned at 2:45 p.m.

Tough choices must be made

There was discouraging news last week for anyone who might have clung to the notion that the acid rain problem in Haliburton County and other areas in the province had been sensationalized by the various media. For the facts, as outlined by an associate professor from the University of Toronto at a meeting in Minden last week, are that acid rain is effecting Ontario lakes, already, and that it will continue to do so in the foreseeable future.

Dr. William Freedman told a meeting of the Haliburton County anti-pollution committee last week that up to 50 percent of the lakes in Haliburton County could become acidified and lose their fish populations over the next two decades.

The news has to be sobering in an area that depends on tourism for its livelihood. And it has to give all of us pause when we consider the reasons for the problem, and the difficulties that will be encountered in coming to terms with it. For the facts are that acid rain isn't a problem caused solely by the monsters of industry. It is a phenomenon to which we all contribute, every single day.

The major sources of the pollution that result in acid rain are industrial rather than individual, but that doesn't mean individuals are free of responsibility.

Acid rain is, in large measure, an environmental consequence of a society that has come to depend on material goods for its gratification and for much of its meaning. It occurs when rain comes into contact with nitrous oxide and sulphur dioxide, by-products of industrial processes and the combustion of petroleum products in internal combustion engines. Every time we turn the key to start our cars and trucks, we add to the problem. Every time we turn on a light we use electricity that has to be produced by coal and oil fired generators to meet our increasing demands. Out of the exhaust pipes of our cars and trucks comes nitrous oxide. And out of the smokestacks of power plants come sulphur dioxide. When they combine with rain and run into the rivers and lakes, the fish populations begin to suffer. In 20 years, the acidity may well have made many of the lakes in Haliburton County empty of fish.

And while it is tempting to blame industry, that impersonal machine which turns out wadgets for a society convinced it cannot live without them, we would do well to realize that industry is every bit as much "us" as it is "them". It makes the goods we buy, it employs the people who make up our communities, it generates the electricity we use, and it turns out the vehicles so essential to our way of life.

The truth then, is that acid rain is our problem, and that only we have the means to eliminate it. To do so, it seems likely that we will have to make some basic, and significant choices.

How complex those choices will be, can be seen when we realize that the same concern for the environment that has slowed down the construction of nuclear power plants has made it necessary for more coal fired power plants to be built to meet demands for electricity. In seeking to avoid one hazard, we contribute to another. And the problem doesn't only apply to acid rain. Whenever we choose one source of energy over another, one kind of product over another, we are making choices with environmental consequences we may not fully understand.

In the case of acid rain, the choices are limited. Short of a complete and overwhelming change in our lifestyles, we will not be able to eliminate the sources of the pollution that result in acid rain. But we must be prepared to accept that there will be economic as well as environmental hardships to be faced before the problem can be overcome. For while the technology exists to precipitate sulphur dioxide out of the smokestacks of industry, it is, according to Dr. Freedman, so expensive as to be impractical, even when measured against the death of 50,000 Ontario lakes.

Either we shut down industry, not only in Ontario but in much of the United States, or we live with the sources of pollution now and spend money for research and technology to eliminate the pollution in the future. And seen in that light, the choice is clear.

Tough environmental laws are needed to control pollution, but tax dollars will have to be spent to develop the technology to control pollution before those laws will have any practical meaning.

The choices are ours to make, through our legislators, and through the lifestyles we lead. Those choices won't be easy, to make and to live with, but they must be made, for the signs point to a day of reckoning when it may well be too late to choose.

The last days of winter

Feir Play

— by —
Creighton Feir

On a recent Sunday evening on Global Television, they had an hour long program and a profile on Foster Hewitt, the dean of hockey broadcasting in Canada. His career in hockey broadcasting has covered a period of over 50 years. He is off the air now and when you come to think about it, his absence away from radio has left a big hole that is going to be hard to fill. Many of you possibly see this program, but for those of you who missed it I would like to fill you in on some of his remarks on the way the game was played in the old days and the changes that have been made since that time. In my opinion when it comes to talking hockey who knows the game better than Foster Hewitt, in other words it's the gospel according to Mr. Hewitt. Granted we have our hockey analysts who are very knowledgeable when it comes to speaking on this subject and they may know what they are talking about but as far as I am concerned, I'll still put my faith in what Foster Hewitt has to say. During the interview he stated that we have as many great stars as before but the difference seems to be that they are spread thin in the seventeen team league. Gone are the days he said when the N.H.L. produced some great lines such as the Kid Line of Conacher, Primeau and Jackson, the Kraut Line of Bauer, Dumart and Schmitt and the Bentley brothers and Mosenko. There was more team play in those days. He made it quite clear that he was not in agreement with the expansion that has taken place and that teams such as Washington, Colorado, Minnesota and some others have no place in the N.H.L. He is in favour of taking in teams from Edmonton, Winnipeg, and Quebec and getting rid of some of the weaker sisters in the league. He went on to say that he feels sorry for the fans who have to pay the top dollar in order to pay the modern day players these high salaries that seem to be getting out of hand. He also commented that the Americans have taken over our game and that we need more Canadian cities in the league to give it more balance. He doesn't broadcast anymore but attends most of the home games of the Leafs at the Gardens as a spectator. His interest is still in hockey, the game that has been so good to him.

We have just been informed that the Glen Dart Memorial Hockey Tournament will be played at the Dysart Community Centre in Haliburton on Friday night and all day Saturday, March 9 and 10. It is no longer just a Haliburton County affair, it is now an Invitational Tournament with teams from all sections of Ontario expected to participate.

I met Larry Hartin who was in Haliburton on business recently and had a short visit with him. Many will remember Larry as the outstanding netminder when he played for the Haliburton Huskies Junior team not too many years ago.

The annual March school break will soon be here and when the time arrives, people will be gathering their children together to make plans to tour Ontario, head out West or vacation in the sunny south. When this school break is on, it makes things very quiet in most sections of our county. If you are one of the lucky ones who will be getting away, we wish you a happy holiday.

The Lake Kashagawigamog Tourist Association has to be one of the most energetic and active organizations in the area. This association in conjunction with the Haliburton Minor Hockey Association sponsor the Atom and Pee Wee hockey tournaments which are held annually and each year are a tremendous success. Some people claim that these two tournaments bring in more money to boost the local economy than any other event staged throughout the year. They are also active in helping out with many other worthwhile projects in the community. It seems that everything that they have sponsored in the past has been a success with one exception and that is their annual Snowmobile Rally held each year in February. This is one event that they just can't seem to get off the ground. It's been very poorly attended for the past two or three years. From what we can gather there were a large number of snowmobilers in the area on this particular Saturday, but they were not in the Rally. Could it be that most snowmobilers would sooner go on their own and are not interested in an organized rally? One problem seems to be that it is held each year just before Snowarama which in many people's opinion is very poor timing. It has also been suggested that the Lake Kashagawigamog Tourist Association should consider the possibility of holding this annual event in conjunction with the Haliburton Winter Carnival. This could be the answer.

Various organizations in Haliburton seem to be of the opinion that the only way to raise money is to have a draw. There seems to be so many draws that a large number of our population are really getting turned off as it seems that everytime you turn around someone is trying to sell you a ticket on this or that. There are other ways to raise money without holding a draw. One way is to hold a Skate-A-Thon at the Dysart Community Centre. Minden and Wilberforce have held them with great financial success. Let's see one of the local organizations get on the ball and instead of selling tickets for a draw, hold a Skate-A-Thon. It's not only a healthy activity, but it should be a good fund raiser.

Did you ever stop and think of just how many different organizations we have here in Haliburton County. We have never really sat down and counted them, but the total number would really stagger you. One has to wonder where all the money comes from to support them.

February 28th was the final date for everyone who owns a car to purchase the stickers that are attached each year to your licence plates. Since I drive an eight cylinder car I had to cough up \$60.00. The question is just what are we getting for this \$60.00 and how often do most of us who live here in Haliburton County get the opportunity to drive on the 401. We are forced to drive on highways here that need to be re-built, such as the one from Haliburton to Minden and from Eagle Lake to Haliburton. The real rip-off comes when you consider that if you live in Parry Sound which isn't that far from Haliburton County it only costs you \$10.00. In other words it pays to live in Parry Sound.

Letters to the Editor

Editors note: The following is an open letter from the Anglican Bishop of Toronto.

To the Editor:

My dear people:

I share with all of you a deep distress at newspaper and media reports which have appeared in the last week about considerations of the House of Bishops in the matter of homosexuality. May I say that the Bishops prepared for themselves a set of pastoral guidelines for dealing with questions of ministry for our clergy.

I want to emphasize that these guidelines have produced no change in any way from the traditional practice of the church over the centuries where dealing with the disciplines; what we have done is to state candidly what the process is. If you read the misleading and distorted reporting in the press, you would come to the conclusion that the church is taking some new action. This is not so and may I emphasize that the Bishops of the church have said clearly that sexual relations outside of marriage are not permissible for Christian people. The House of Bishops has not condoned homosexual activity, but we have faced realistically the fact that throughout the history of the church there have been those in ministry with heterosexual and homosexual orientation. The Bishops stated once again, that all in ordained ministry must accept the historic standards of behaviour which the church has always required.

I am deeply disturbed that what has been a discipline of ministry in every Christian tradition should have been distorted by press reports and I want to say to all our people in this diocese that we are not condoning homosexual activity, nor are we accepting it as a normal ultimate lifestyle for either clergy or laity.

Yours faithfully,
Lewis Garnsworthy,
Bishop of Toronto

To the Editor:

The Haliburton Carnival snowmobile races were really interesting and quite exciting at times; but where were any interested lady competitors? It was a little disappointing not to be able to enter a race against competitors close to my own capabilities. There isn't any reason why we should leave snowmobile racing "up to the men". Come on ladies, let's get out there next year and have some fun!

Sue Harrington, RR 1, Minden

From the Chamber

by Bob Stinson

Building Trades Directory

Response to the Chamber's new Building Trades Directory by participating members has been extremely good and we are now looking forward to the result. The booklet is now in the hands of the printer and delivery is anticipated for the opening of the Sportsman Show. The directory will also be distributed locally by members, real estate offices, municipal offices and anywhere else that property owners may make use of them.

We sincerely hope that everyone who wished to be included in the directory was able to reply in time. We regret that more time was not provided to prepare the book but it was considered important to have it available for the Sportsman Show.

Acid Rain

Those attending the Anti-Pollution meeting in Minden were treated to a very informative explanation of the causes, effects, and lack of solutions to the acid rain situation.

The forecast is that unless solutions are found, 50 percent of our lakes will "go acid" in the next 10 to 20 years. Chances of a solution are questionable since the cost of treating the lakes to buffer the acid is prohibitive and the source of the acid rain is spread throughout the north eastern United States.

Although the situation may sound rather hopeless, it is not enough to throw up our hands. Pressure must be applied to all levels of government to improve the technology available so that a feasible solution can be found. If they can put a man on the moon - surely they can find a way to avoid destroying our fishing waters.

The other important fact to emerge from the presentation is that an acid lake will not support fish but other than that remains basically normal. There is no other known damaging effects. The term "Acid" or "Dead" lake that is commonly used leaves an impression of utter devastation that can cause an over reaction. The loss of sport-fishing on 50 percent of our lakes would be extremely unfortunate and should be avoided if there is any way possible - but if it is inevitable it would not destroy our tourist industry or plunge real estate values as many of us had feared. Thank goodness for small mercies.

Sportsman show invitation

A newsletter went out this week to members to participate with us at the Sportsman Show in our big double booth. Members may for a fee of \$50.00 display their own brochures in the booth for the entire show, and personally work from the booth for up to two days to promote their own business. Participants are accepted on a first come basis and no competitive businesses are accepted for the same time period. Join us, won't you!

Eakins reminds youths of Experience '79

John Eakins, M.P.P. (Victoria-Haliburton) hopes many young people in the Victoria-Haliburton area will take advantage of Ontario's Experience '79 program, which will provide jobs for more than 13,500 young people. The jobs are in addition to the 10,000 positions available through regular summer replacement with various provincial ministries.

Experience '79 is administered by 25 participating ministries. Many are operated in cooperation with established community agencies, such as local municipalities, school boards, conservation authorities, tourist associations, libraries and art galleries. The format ensures that Experience '79 initiatives respond to local concerns and priorities.

This summer, observers might see Experience '79 participants developing recreational and cultural programs for residents of Ontario Housing sites, homes for senior citizens and the mentally retarded, researching improved measures for better farm drainage systems throughout the province, working in community legal aid clinics, libraries, museums and art galleries or conducting research into energy conservation.

These are just a few of the many challenging and important duties young people will be carrying out this summer through Ontario Experience '79. Experience participants will be paid the provincial minimum wage.

Hearing scheduled for truck licenses

John Eakins, M.P.P. (Victoria-Haliburton) has appeared on many occasions before the Ontario Highway Transport Board on behalf of dump truck operators seeking a Class "R" licence. Because of this, he feels his constituents will be interested to know that the Ontario Highway Transport Board (OHTB) will be holding hearings to examine PCV "R" dump truck licensing procedures and regulations. They are scheduled for March and early April in Toronto, London, Ottawa, Sudbury and Thunder Bay.

The hearings will not be considering specific licence applications, Eakins said, but will deal in general with the industry, and that this will be the first time in recent history the Board has held hearings on policy matters.

Pic of the Past

When some of the oldtimers get together and they talk about the good old days, one of the topics that often comes up for discussion is the old gold mine that was in operation in Haliburton years ago. The gold mine was situated on the mountain just below where the Skyline Park lookout is now located. The above photo shows five men working in the mine around 1909. They actually brought gold out of there and it operated for a few years. Marjorie Hansen's father, Ed Hazzard, is shown second from the right doing some of the drilling. Our thanks to Marjorie Hansen of RR 2, Haliburton for submitting this most interesting photo.

Bill Smiley

By the time this appears in print, the worst of the suffering in Canada will be over. And I don't mean that dreadful February cold snap which turned us into our annual winter condition, a nation of misanthropes.

Burst water pipes, cars so cold you can't even put them into reverse to back out in the morning, and temperatures that would freeze the brains of a brass monkey are bad enough. But we're used to them. We know that in another four months, we'll be gasping in a heat wave and beating off mosquitoes.

No, that's not the suffering we did this February. It was being smugly satisfied on a Thursday night, mildly dismayed on a Saturday afternoon, and utterly humiliated on a Sunday night that caused the suffering.

Talk about blue Monday. That Monday in February, after them Rooshians had kicked the living stuffing out of Canada's finest, was so blue it was almost purple.

I'm not saying that I, personally, suffer when Canada's primary export, hockey players, is no longer marketable. I'm not saying that I'm just saying that I bleed a little, internally, when a bunch of rotten red, pinko communists make a group of fine, young, liberal, capitalists look like a bunch of old-age pensioners whose Geritol has been cut off. Right after the second game, I went to the clinic and had a cardiogram, just in case.

Sports writers, their guts churning, praised the play of the Russians and intimated that they knew all along what would happen. As they always do, after the event.

The Canadian players showed more grace. The best of them simply admitted they were beaten soundly by a superior team. But they knew in their hearts that they, and all their highly paid buddies, were facing not a physical Siberia, but a Siberia of the soul.

They were the Best in the West, and they had not been just beaten but thoroughly trounced, by the Best in the East, where hockey is a relatively new sport.

Not for me to ask, "How did it happen?" All the experts have agreed that the Russians skate better, pass better, and are infinitely

superior in physical condition to the pampered Canadian pros, who weighed an average of nine pounds more than their opponents.

It is only for me to ask, "Why do we suffer so much when we're licked in hockey?" And I think I know the answer to that.

For a century or so, Canadians have been hewers of wood and drawers of water. Fair enough. We had lots of wood and water, and still have and other people need them.

But we also had three superior finished products, manufactured at home, that nobody else in the world could touch, when it came to quality: maple syrup, rye whiskey, and hockey players.

Our supremacy in these departments is virtually ended. Our whiskey has been watered more and more, our maple syrup has been thinned to the consistency of greasy-spoon gravy, and our hockey players, with a few stalwart exceptions, are more impressed with their hairdos, their press clippings, and their financial statements than they are with beating their opponents.

There is a sadness here. Rye whiskey is bad for the liver, maple syrup bad for the teeth, so perhaps their denigration is not a national disaster. But to have a hockey team that is the second or third or fourth best in the world? That is unthinkable.

Every red-blooded middle-aged male in Canada has hockey in his veins. He personally knows, or his best friend does, or he lives in, or lives in the next town to, or is sixth cousin of, or grew up with, or was preceded by only 10 years by, in school, a genuine hockey player, who made it to Junior A, or Senior A, or even the NHL, or one of its farm teams.

Two of the quarterbacks on my high school football team, Les Douglas and Tony Licari, made it to the Detroit Red

Wings organization. My brother-in-law, Jack Buell, played Junior A and Senior A and became a referee. My grandson, at the age of two, was given a hockey stick and demolished his grandmother's hardwood floors in the livingroom, smashing a puck around the floor with great vigor and a certain lack of control. (She finally put her foot down when he insisted on scrimmaging around the piano while she was giving lessons).

To add insult to injury, this idiotic idea of Iona Campagnola, Minister of Jocks, has popped up. She wants to give \$18.5 million of my money and yours to four Canadian cities, so that they can build big arenas to accommodate four more losers in an NHL that is already so watered-down with mediocre talent that 60 percent of them couldn't have made a Senior A team 30 years ago.

What she should do is support an Order-in-council which proclaims that, with the emergence of Red China, Russia is now a second-rate power, not worthy to be faced-off against.

Then Allan Eagleson can organize another Series of the Century with China, where they learned to skate about eight years ago. We'd probably win it by one goal in 1980. And lose it by 10 in '81.

No date set for railway hearing, Scott told

Bill Scott, M.P., Victoria-Haliburton learned this week that no date has yet been set for the hearing regarding abandonment of the C.N.R. line from Lindsay to Haliburton. D. H. Jones, chairman of the Railway Transport Committee, told Scott that other priorities within the commission preclude the processing of the C.N.R. application regarding the Haliburton subdivision at the present time.

The department spokes-man explained that in appli-

There has been a great deal of comment lately regarding the environment of Victoria and Haliburton Counties, and especially the progress of the acid rain research. I am naturally delighted that Provincial Lottery funds are now being made available for this. In a future column I shall deal with more of the background of acid rain and just how widespread the problem really is.

I appreciate the recent announcement that the province is expanding its research into the global environmental problem of acidic precipitation and its effect upon fish. Two research projects financed by \$226,000 in Provincial Lottery funds, are indications of Ontario's investigation of acidic precipitation - the particles borne by upper air masses and deposited in rain. Acidic precipitation is mainly caused by our society's heavy industrialization and dependence upon fossil fuel. The problem is virtually world-wide and scientists so far have just scratched the surface with their research. This program in Ontario is well underway but we have a lot to discover.

A \$186,000 contract has been awarded to the University of Toronto for the monitoring of fish in

20 stressed lakes in the Haliburton region. This study is an extension of research conducted by the ministry since 1976 in cooperation with the Ministry of Natural Resources. The second project, funded by \$42,000 is now underway at the Canada Centre for Inland Waters in Burlington, where the suspected link between acidic precipitation and the intake of mercury by fish will be studied in special lake simulators.

In spite of intensive research by the Ministry of the Environment and the Ministry of Natural Resources during the past two years, they have been unable to trace the origin of mercury contamination found in species of fish taken from Ontario lakes. Scientists suspect the acidification caused by airborne sulphur and nitrogen compounds is a factor in this process. I hope that this study will provide the basis for a better understanding of the problem and will assist the ministry's efforts to develop techniques to improve lakes which have become acidified.

As I have said, I look forward to discussing this subject in more detail at a later date.

Letters to the Editor

from page 4

I have not had a wide acquaintance with Mr. Kinsman, nor do I know anything about his background, but have no doubt he is a reputable citizen of Stanhope. However, it would appear that he does not have the knack of working with the men in such a way that would ensure the best operation of the Fire Brigade, and tends to make decisions on his own. In any group there are bound to be differences of opinion, but if they are talked out in an open and friendly manner, can usually be resolved. In any case, decisions should be collectively arrived at.

Most of the difficulties seem to have arisen with the construction of the new Fire Hall. The old building to which the new hall is attached is owned 100 percent by the Township - in other words the people, so it seems logical they should know what is being done and how the work is carried out. I am not familiar with all the financial arrangements, but I do know that Wintario awards its grants on the basis of reimbursement for expenses incurred, and do not remit same until the work is finished. So the township has been carrying a load of around \$25,000.00 since 1976.

I understand the grievances of some of the men who worked on the building were not dealt with openly in a spirit of cooperation, but instead they were dismissed by registered letter from the Chief, without the knowledge of the councillor assigned to work with them, and without approval of council. If my understanding is correct, Bylaw No. 73-10 gave the Chief authority to suspend but not to fire anyone. In this case, the men were fired. The work they were doing on the building was above and beyond their normal duties as firemen. In that case they should not really have been subject to the authority of the Chief. He was only another volunteer like themselves. Council, however, saw fit to suspend them, including the Chief, for a period of three months.

Now with the suspension period over, three councillors have moved and passed a resolution to reinstate the Chief but not the others. Is this fair? I think not. We elect men to council whom we think will act fairly and squarely with everyone, and it is a severe disappointment when they do not. I am glad that at least two members justified my faith and voted against this one-sided resolution.

I realize that criticism is not constructive unless accompanied by suggestions to resolve the problems. Well here are mine:

(1) That the Resolution should be rescinded and a new one passed to include reinstatement of all those who were suspended or fired. Even if they do

not wish to go back, it will preserve their dignity and their right to disagree. Failing that procedure, I think the whole department should be scrapped and started again from scratch.

(2) That an impartial person or group, as proposed by the Reeve, should be put in charge of the hall and the finances, who would make sure that all proposed expenditures are votes on by the members and approved by Council.

(3) I believe a new set of Bylaws are being drawn up, and I think they should include safeguards against any similar situation arising again, and that ALL firemen should be required to abide by them.

This letter may be lengthy, but I would ask that you try to find space to publish it in its entirety. I have expressed my personal opinions, and hope that in some measure they may be helpful.

Sincerely,
[Mrs.] Louise Watson,
RR #2, Minden
(Hall's Lake)

ONTARIO GOVERNMENT NOTICE

HIGHWAY LOAD LIMITS - SPRING 1979

Half loading restrictions, as outlined below, on certain highways in the Bancroft District will go into effect at 12:01 a.m. Monday, March 12, 1979:

Hwy. 28 - From Jct. Hwy. 36 to Bancroft
Hwy. 36 - From Bobcaygeon to Jct. Hwy. 28
Burleigh Falls
Hwy. 41 - From Kaladar to Jct. Hwy. 512
Hwy. 60 - From Cache Lake Road (in Algonquin Park) to Jct. Hwy. 512 (Killaloe)
Hwy. 62 - From Tudor-Madoc Township Boundary to Barry's Bay
Hwy. 121 - All Hwy. 121
Hwy. 127 - From Jct. Hwy. 60 to Jct. Hwy. 62 (Maynooth)
Hwy. 132 - From Jct. Hwy. 41 to Renfrew Town Limits
Hwy. 648 - From West Limit of Harcourt to the East Jct. of Hwy. 648 and Hwy. 121, and from the North Limit of Wilberforce to the West Jct. of Hwy. 648 and Hwy. 121

HALF LOADS on all other provincial highways or sections thereof not mentioned above in the Bancroft District, Ministry of Transportation and Communications, Ontario.

Huskies will meet Lakefield in final after taking Bobcaygeon in series

Victory and defeat after it's in the net! This opening goal gave the Haliburton Novice team a lead in last Saturday's Monmouth Novice Tournament. Wilberforce went on to win 4-3.

The captain of the Wilberforce Novice team receives the championship trophy from Maureen Bousfield, secretary-treasurer of Wilberforce Minor Hockey.

Maureen Bousfield, secretary-treasurer of Wilberforce Minor Hockey presents an individual trophy to Erin Cooper of the Haliburton Novice team despite a 4-3 loss to Wilberforce.

Haliburton Huskies will meet Lakefield later this week in the first game of a best of seven final series in group #5, OHA Junior D.

The Huskies advanced to the final after wrapping up their best of seven series against Bobcaygeon, four games to one.

Huskies were leading the series two games to one last Wednesday when the teams met in Bobcaygeon for game four. They were never behind in the game, and came out winners on the strength of a three-goal performance by Joe Roberts.

Roberts got off to a quick start in the first period,

breaking up the ice and beating the Bobcaygeon net-minder just a minute and one second into the game.

At 5:52, it was Roberts again scoring an unassisted goal to make it 2-0 for the Huskies.

The teams settled down for the rest of the period, with neither able to get a goal on the scoreboard.

Bobcaygeon grabbed the momentum early in the second period, scoring their first goal of the game at 1:40. Short-handed, Bobcaygeon got their second of the game to tie things up at 6:50. But the Huskies weren't content to be tied for long, and took the

lead again at 9:46 on Roberts' third goal, assisted by Randy Barras.

Neither team scored for the rest of the period.

In the third, it was the Huskies coming out charging to stretch their lead to two goals at the 58 second mark on a goal by Randy Barras, assisted by Joe Roberts.

Bobcaygeon closed the gap to one again at 6:39 just three seconds after Huskies' Steve Fransworth was called to serve a two minute interference call.

The Huskies stretched it out to 5-3 at 10:05 on a goal by Chris Hodgson, assisted by Andy Salvatori.

Bobcaygeon moved within one goal again at 16:03, but Salvatori got the insurance marker on a power play with just 12 seconds left in the game to give the Huskies a 6-4 win.

Friday, the teams were back in Haliburton for what turned out to be a high scoring, penalty filled contest.

Sixteen goals were scored in the game, 14 of them on power plays, including the Huskies' first ten goals, and all four of the Bobcaygeon markers.

Bobcaygeon moved out in front early in the first period, at 4:08 while Tim Oram was sitting out a slashing call.

At 8:49, Bobcaygeon took a two-goal lead, again on a power play, this time while Dave Pettes was in the box for high sticking.

The Huskies found the mark for the first time at 12:23, and from then on they ran away with the game. Scoring the power play goal was Dave Brown from Barry Shaw and Steve Davies.

Other Huskies scorers in the first period, all on power plays, were Dwight Sisson at 15:39 from Barry Shaw, Shaw from Andy Salvatori at 18:45, and Tim Oram from Joe Roberts and Dave Brown at 19:12.

In the second period it was Bobcaygeon beating Craig Wood at 1:53 to move a single goal behind. The score remained 4-3 until the 13:00 mark, when Joe Roberts got the first of his four goals, assisted by Steve Davies and Dave Brown, on a power play.

At 17:08 the Huskies made it 6-3 on the strength of Oram's second goal of the contest. Assists went to Joe Roberts and Barry Shaw.

In the third period, Bobcaygeon narrowed the gap with a goal at 3:14 on a power play.

Final scores were as follows: J. Fitzgerald beat J. Peel, 9-7, 9-1, 7-9, 9-6; M. Brelsford beat D. Smith, 10-9, 6-9, 9-3, 9-3; D. Stamp beat A. Mahaffy, 9-2, 4-9, 9-3, 9-5; B. Fitzgerald beat P. Smith, 9-3, 9-0.

The overall winner was John Fitzgerald's Wednesday night team.

The games were followed by an awards presentation and social evening.

Members are now eagerly awaiting the start of the spring league and their chance to try again.

From then on it was the Huskies all the way as they continued to pepper the Bobcaygeon goalie with shots, and as the teams played shorthanded as a result of rough play, bench minors and fighting penalties.

Joe Roberts got his second at 5:05 of the period, assisted by Shaw and Steve Fransworth. At 5:40, Chris Hodgson got his first of the game, assisted by Salvatori.

Barry Shaw made it 9-4 for the Huskies at 9:20, assisted by Joe Roberts and Randy Barras.

At 9:34, Chris Hodgson squared off against Bobcaygeon's Paul Taylor, and both went to the box with five-minute fighting calls.

Shaw made it 10-4 for the Huskies at 10:05, from Fransworth and Barras, and Joe Roberts scored twice more to round out the Huskies win, at 11:26 from Barras and Shaw, and at 14:19 unassisted.

The third period was marred by a number of roughing and fighting calls, including one incident in which Bobcaygeon's Gerry Geary drew a match penalty for punching the referee, and had to be pulled off by his teammates.

Final score was Huskies 12, Bobcaygeon 4. Lakefield took Bancroft 8-7 in the second overtime period in Lakefield Sunday night to wrap up the series and move on to meet the Huskies later this week.

Local rink wins one day spiel

by Don Popple

The annual one-day ladies bonspiel was held at our club on Saturday, March 3. A total of 12 teams from various clubs in the area participated.

Emily LaRue's rink from Haliburton finished first with a total of 39 1/4 points and won the CKCO Trophy which was presented by Dave Chatfield. Deb Wilson, Anne MacNaull and Phyl Bishop were the other members of the rink.

Congratulations girls.

In second place with 38 1/4 points were Joan McKinley's rink from Weston. Lynn Sommerville, Anne Mortimer and Doreen Gray rounded out the rink.

Another Haliburton rink skipped by Phyl Woodcock placed third with 38 points. The other girls on Phyl's rink were Marg Wilford, Sheila Elston and Sandra Casey.

Fourth overall was the Sylvia Bell rink from New-

market and fifth overall with 26 1/4 points was Linda Collins' rink from our club. Linda's other team members were Jean Collier, Jane Johnston and Bunney Scott.

All prizes for this event were donated by local merchants and businesses. Ann Lee and Sheila Elston made sure there was entertainment for the evening and from all reports did an excellent job.

Also worth mentioning, and in a reversal of roles, the men curlers from the club were the kitchen help and waiters for the evening.

Bonspiel convenor, Kit Koehler, said that the success of the bonspiel was due to the enthusiastic efforts put forth by the chairmen of the various committees. The club as a whole appreciates the support of the following merchants: Banks General Store, Bernstein's, Black's Hardware, Brohm's Variety, R.J. Brohm Real Estate, Cauldron Drug Store, Coneybear Motors, Cordell Interiors, Curry

Motors, Haliburton I.G.A., Haliburton Red and White, Haliburton Lumber, Haliburton Pharmacy, Nancy's Flowers, Mahaffy Upholstery, PineStone Inn, Pollard's Store, Stedman's - Haliburton, Silver Eagle Cottages, Skyline Automotive, R. E. Scott, Len Salvatori, Inmont Trans-Eastern (Peterborough), Varty Jewellers, Vassey Insurance.

With regards to weekly curling news, regular schedules have now finished and each of the various leagues will be having playdowns beginning this week. The ladies Wednesday night league started playdowns last week. They will not curl Wednesday, March 7, and final playoff games will be Wednesday, March 14. The year will end up with a final evening similar to last year's "Fun Night" with curling, (if there is still ice) games and elections. All curlers from the three leagues will be invited to attend this evening.

Top four teams were only four points apart

Squash club holds league finals

The Highlands Squash Club held the finals of its winter house league on Friday evening, March 2. House league play was tried first last fall with great success. As a result a winter league was set up and expanded to two evenings a week, Monday and Wednesday, allowing 56 players to take part. The Monday night teams were very evenly matched and

after seven weeks, the top four teams were separated by only four points. The teams with the best record included Wally Stender, Mark Brelsford, Al Mahaffy and Patti Smith.

The Wednesday night teams were not as close at the end but competition was just as keen. After regular play the team of John Fitzgerald, Derek Smith, Derryl Stamp and Bonnie Fitzgerald held a commanding lead.

The Friday night final pitted Monday's best against Wednesday's best and club members were treated to some excellent play. Unfortunately Wally Stender could not attend so Monday night players selected John Peel to play in his place.

Haliburton takes Minden

Ops eliminated Haliburton in the first round of the OMHA first playoffs by scores of 3-0 and 4-0. Haliburton played well, but failed to score on last year's Ontario champions.

Haliburton then started the consolation round against Minden, which is a best of five series, on Thursday, March 1 in Minden. Haliburton won the first game 1-0.

In the first period, Glenn Hall and Paul Kuno received roughing penalties at 8:40.

At 7:45 of the second period, Glenn Hall got a two minute penalty for elbowing. At 8:03 Cory McKnight also received two minutes for taking an illegal shot.

At 4:19 of the third period, Mike Blake got two minutes for interference and at 7:04

Jeff Walker was assessed two minutes for roughing. At 12:35, Tran LaRue got two minutes charging. Paul Kuno scored the only goal of the game at 5:15 of the third period.

Minden skaters win in interclub competition

Eleven members of the Minden Figure Skating Club travelled to Lakefield Sunday, February 25 to participate in the Haliburton Kawartha interclub competition.

Local skaters did well, frequently placing at or near the top of the field in the competition, which was hosted by the Lakefield Figure Skating Club, and sanctioned by the Canadian Figure Skating Association.

In pre-junior ladies skating, Wanda Blake placed first, Tammy Short placed second, and Betti Joe Clayton skated to third spot for a Minden sweep.

Three local skaters took to the ice for the preliminary ladies competition, and when

the points had been totalled, Jo Anne Kerr was in sixth spot, Tammy Pritchard was 14th, and Wendy Buchanan took 17th among a large group of skaters.

In preliminary ladies similar dance, Adele Wray and Diane Clayton skated their way to a third place finish.

In pre-preliminary ladies competition, Margaret Anne Brown placed seventh, Diane Garbutt placed eighth and Bonnie Moffat came up with an eleventh place finish.

The novice ladies trophy, donated by Haliburton County, was awarded to Laurie Roice of Lindsay.

The juvenile ladies similar dance trophy, donated by Frank Welch Memorial, went to a pair from the Lakefield figure skating club.

Steve and Don. I joined them Saturday morning at the Gooderham end of the Ministry's Five Point Trail which they had ridden up from Bobcaygeon. They had already travelled 45 miles when, at Gooderham, I turned my trip odometer back to zero. It read 109 miles at Devine Lake Lodge where we put up for the night but about seven miles of that was run up with several un-scheduled detours.

We came north on the Gooderham trail (H.C.S.A. #16) and ran down Koshong Lake to call in at my house where we tied on a spare can of fuel. After Friday's rain, the lake was heavy going with wet snow over a couple of inches of water. The fellows didn't feel comfortable on it so I changed my plan of using the lake route to Minden and

Along the Trails by Roy Bates

Trip Time

A 900 mile snowmobile safari passing through Haliburton County during the cold spell in February comprised of three hardy souls from the Milverton and District Snowmobile Club. John Coxon, Bud Cook and Paul Alexander wound their way from Milverton to Dundalk, Wasaga Beach, Orillia, Oxton Lake, the Tall Pines near Dorset and on down to Haliburton Forest. After a brief repose, they continued on their way homeward. They reported a great trip with no mechanical troubles and found all trails quite good.

A recent trip by a group

from Minden, headed up by Jim Solway and Steve Berry, made a complete circuit of Algonquin Park. They travelled east to Golden Lake and Pembroke then around the park to the North Bay area and back through the trail systems on the west side. Total trip was about 500 miles.

My trip to Port Sydney was short by comparison. The group consisted of Ted Pollack of Bobcaygeon, his sons Scott and Doug with friends

District News

Norland Notebook

by Barbara Maunder

If you wondered why the second paragraph of my last week's column didn't make too much sense, I guess that we will have to blame a gremlin in the typesetting or printing. The part that didn't get printed concerned the John Johnson family who lost their home and belongings in a fire on February 16. The Johnsons have a three-year-old boy who wears Size 4 clothes. Mrs. Johnson is a ladies size 10 - 12 and Mr. Johnson is size 30 - 32 inch waist in pants and men's size small in shirts. A layette for the Johnson's expectant child has been purchased with donations from a special fund that was set up for this purpose. As there is no place to put or store large pieces of furniture or appliances etc., good used clothing in their sizes would be most appreciated at this time by the Johnsons. Rotha Bryant at Norland Post Office is accepting contributions for them.

At the morning service on Sunday, February 25 in the Norland United Church, Rev. K. Crawford dedicated two large, engraved, brass jardinières in memory of Mrs. Rolla Lee, a former member. Mrs. Joyce Bartley, president of Norland U.C.W. accepted the jardinières on behalf of the congregation and assisted by Mrs. Hazel Gostlin placed them on the side tables at the front of the church.

Some of our local people who have been on highway 48, west of Coboconk near the French settlement sideroad, early in the morning have seen from six to nine deer browsing along the roadside and sometimes crossing the highway to the low swampy area. On checking there last week about 9:00 a.m., there were no signs of these swift, graceful animals who were probably out of sight in the bush near the road. No doubt feeding and watering times would be the popular hour to sight them.

Firemen's Hockey Pool winner on Saturday, February 24, was John Eason. In the Legion Hall, Coboconk on Tuesday, March 6 at 7:00 p.m., seniors Linda Janke and Tony Potter of grades 7-8 and juniors Robbi Landry, and Pam Potter of grades 4-6, Norland public school will compete in the public speaking contest. Coboconk Branch 519 of Royal Canadian Legion, annually sponsors this competition with students also competing from Burnt River, Coboconk and Kirkfield. The winners on March 6 will then speak in Legion Zone F finals on Sunday, March 11 at 1:00 p.m. in Fenelon Falls Legion Hall. Many a great statesman (woman) has begun this way!

Because there was not a sufficient number of ladies interested in learning the fundamentals of rug hooking

at this time, the workshop planned for March 7 has been postponed until a later date. To make the class feasible, a minimum of 10 people was needed for it. However, the regular Second Venture group will continue to meet every other week in the Norland Community Hall starting on Wednesday, March 7. All who are interested in handicrafts and recycling ideas are invited to come from 10:00 a.m. to 3:00 p.m. and bring a lunch and your craft ideas.

Norland bowling team standings as of Wednesday, February 28. Teams of B. Maunder - 21 pts., L. McLean and B. Davey - 17 pts., L. Jewell - 15 pts., N. Chynoweth - 14 pts., K. Watson - 12 pts., T. Watson - 9 pts., and D. Boyce - 7 pts. Ladies high single and triple, Barbara Maunder - 259, 625 and average, Nelly Chynoweth - 190. Men's high single, Kim Watson - 238, high triple, Don McLean - 615, and average, Harry Smith - 197.

"Byways of France" was the subject chosen and narrated by Robert Ditta of Los Angeles, California at the March presentation of the Rotary Club travelogue at the Academy Theatre, Lindsay on Thursday, March 1. Mr. Ditta, whose mother was born and lived in Paris went to visit relations and while there filmed not only some of the lovely sights and buildings of

that well-known city but also photographed and featured some of the breathtaking scenery and country that is often not seen by the average visitor and tourist. By film we viewed the fishermen with their nets and catches, the quaint shops that carved attractive and unique wooden figures, designed and made clocks, ceramic figurines, the large flea market that is 16 square blocks in Paris and where the best antiques can

be purchased. We saw the country around the lower Alps mountains where bright and colourful spring wild flowers were blooming and travelled over 15,700 feet in one of the oldest cable cars in Europe and surveyed the surrounding countryside and landmarks from there. The sixth and final travelogue in this year's series will be at the Academy Theatre on Thursday, April 12 and is entitled

Cont'd. page 8

Senior League

Fun and fitness kicked off our week on Monday morning and crafts in the afternoon. Tuesday morning devotion was led by Rev. Lorne Schmitt of Minden Church. He also sang two solos with his wife accompanying him on the organ. We certainly enjoyed his message and his singing - it was lovely.

Wednesday as we ladies in craft room kept busy, the men had a couple of games of carpet bowling with Lloyd Coleman keeping score in the auditorium.

Thursday afternoon we enjoyed our weekly tea party with the ladies from Ingoldsby U.C.W.. Everything was just delicious. Thank you very much.

I would like to apologize for

last week's error. I gave credit to Hyland Crest Auxiliary for pouring the tea; it should have read Carnarvon U.C.W. I'm really sorry for the mistake, so thanks go out to the ladies from Carnarvon for the lovely lunch they served.

Friday afternoon the Women's World Day of Prayer was conducted here in our auditorium; four denominations were represented. It was such a beautiful service. We heard of some wonderful experiences some of the people had with the love of Christ in their hearts and the prayer that went forth to people of other countries and for peace on earth. This brought our week to a wonderful close.

Wilberforce News

by Winnie Schofield

A former Wilberforce resident, Mrs. Helen Chapman, passed away in Toronto after a lengthy illness. Helen Richardson was the daughter of Mrs. Sid White, a well-known and greatly respected lady who operated the boarding house now occupied by Jake and Sally Mather. Helen grew up here and attended the local school. She was a faithful member of the Anglican Church. She married George Chapman, a mining promoter, and they moved to Toronto. She never lost her interest in Wilberforce and kept in touch with relatives and friends who now mourn the loss of her cheerful personality.

The Girl Guides and Brownies have just completed Think Week. This provided the girls with an opportunity to examine their relationship with other branches in this world-wide organization operating in 96 countries. The Wilberforce Branch chose to study Poland and films were shown of that country. The highlight of the evening was the appearance of Liz Jewel of Harcourt in her authentic, colourful Polish costume. Polish food rounded out an interesting evening. The program enjoyed by the Brownies consisted of the discussion of three countries. They were pleased with the results of their recent bake

sale, the proceeds of which will be sent to the Friendship Fund which will assist members from underprivileged countries on international trips. The week ended with a church parade of both groups with their leaders to St. Margaret's Anglican Church where the girls presented their flag and took part in the service. Seventy-five parents and their children arrived in buses from Scarborough to provide the recent big weekend of hockey tournament. March 24 and 25 will see the Wilberforce Minor Hockey teams returning the visit. Right now the city people will be reserving accommodations for our players and we will appreciate having our children taken in and looked after by strangers. We love to welcome players from other regions but the billeting problem is tremendous. Try to imagine what you would do if faced with the plan of finding lodgings for three busloads of people. Just planning the activities of the weekend is a giant task. Our minor hockey committee has done an excellent job but would welcome some help from you. You could ease the burden by taking in one or two people for the weekend and showing them some good old Wilberforce hospitality.

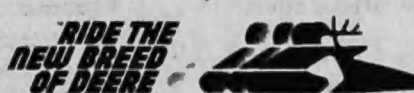

BUY NOW!

No finance charges till October.

Buy a new John Deere snowmobile the easy way... with the John Deere Finance Plan... and no finance charges will be imposed until 1 October 1979. On 1 October 1979 you may elect to either pay the remaining principal balance owing, or continue the financing agreement with us. See us today for complete payment details.

Offer expires 30 April 1979.

MINDEN MARINE & AUTOMOTIVE

PHONE 286-1011 HWY. 35 and 35B - MINDEN

Chatting with Irene

by Irene Moore

Do you think spring is any closer? Someone told me that they had seen some crows, and I have heard that the robins have been seen in some parts of the province. After a wet weekend the snow has certainly gone down a lot, now I can see about half of the small trees around the house. All winter they were covered over completely with snow. Some of the big trees are starting to show buds, so I guess spring isn't too far away, what do you think? You know how you feel kind of lazy or something when it comes spring? Well, that is the way I feel this morning. I must be like the lazy farmer, just can't get going.

Mr. and Mrs. C. Hobbs have been vacationing in Florida for some weeks. Frank and Elmer Miles of Toronto visited the Floyd Millers on the weekend.

The Wards for St. Paul's Church for this year are, Major Glynn Lewis and Pierce Whitney.

There was an exchange of books at all the libraries in the southern part of the county last week and the librarians are quite happy with their exchange.

Mark the date March 16 on your calendar and be sure to go to Hyland Crest Home for their St. Patrick's Euchre party starting at 7:30 p.m.

Winners at the L.O.B.A. card party last week were for euchre - Joyce Hewitt, Bill Elcome, Clair Brooks, Roy MacDonald, Trudi Coulter was the winner of lone hand on a cut.

Minden Pee Wee and Midget teams travelled to Tamworth last Sunday for the second game of the quarter finals. The Pee Wees lost 5 to 4 and the Midgets also lost. The next Midget game is here on Thursday evening at 7:30 p.m., but the Pee Wees do not play until next weekend in Tamworth. On Saturday here, the Pee Wees won their game 9 - 3, but the Midgets lost their game. Thursday night will tell the tale for the Midgets.

Mr. and Mrs. Phil Robinson had the Ern Voicys of Gamebridge visit them on the weekend.

Do you have some of your family who are allergic to certain foods? If you do, why not visit the "Storeroom".

This is a health food store and is across the bridge, beside the laundromat and has many substitutes for cocoa, etc. They are open from 10 to 5, every day except Monday and Sunday. They have food books as well as other books, etc. Why not drop in and see for yourself what they have.

Mr. and Mrs. Les Coulter, also granddaughter Amber of Kirkfield, visited relatives here on Sunday.

Mae's Country Mart now have a coffee shop. This will be open each day as long as the store is open. It is lovely so why not drop in and get a cup of good coffee and a sandwich, then you can see it for yourself.

Mrs. Gwen Cox has been vacationing in the Bahamas for the past few weeks.

The micro-wave oven and stand being raffled by Minden Minor Hockey seems to have hit a low. If you do not like these ovens, buy a ticket anyway for if you win it you can always sell it again. I have conflicting thoughts about the ovens, but bought a ticket anyway. It helps minor hockey and if I win it I'd be so happy I'd likely keep it for I do not ever win much.

Mrs. Jean Taylor, Mrs. Dianne Walker and Mrs. Anne Burke attended the funeral of Mrs. Alvin Taylors' mother in Huntsville last Friday.

The St. Paul's A.W.A. reported an excellent turnout for their pancake supper last week. This is good for they are doing a terrific job.

Mrs. Lillian Mann had to make a special trip to Toronto this week. Winners at the weekly mini card party last week were: bridge - Dianne Warren; cribbage - Joyce Hewitt, Anne Rockory; euchre - lone hand, Bill Elcome, Shirley Elcome and Della Griffin.

Bill and Althea Gartshore, also, Mr. Johnson will be home shortly from their winter stay in Florida and other places.

I had a good time at the arena last evening as I was filling in for the regular ticket seller who had gone to Tamworth. Maybe I brought the teams luck as all three Tri-County teams won their games. Pee Wee B's 3 - 2 against Cannington; Bantam B's 8 - 3 against Cannington

and Midget B's 3 - 1 against Millbrook. The Midget B's had a terrific game. I was going to come home at the end of the second period, but with the score 1 - 0 for Minden I just had to stay until the end.

Elsie Sedore has been having a holiday in Florida.

There was a meeting of the Agricultural Society last Tuesday evening and there was an excellent attendance.

Reports on the convention were given by Beatrice Taylor, Bev Connelly, Loretta Nesbitt and Jerry Pillsworth. Each covered a different aspect of the convention; Bea telling us that the quilt competition was won by Mrs. Margaret Carr of Fenelon Falls; Bev mentioning that a 12-year-old had 156 entries in the Dresden Fair. If she could do it so can our children.

Jerry spoke on the seminar on horse showing; Loretta spoke on publicity and how all need to work to get it. All reports were very interesting and had many points that this county needs to make the County Fair a success. Remember this is the County Fair, so come out and help make it a credit to Haliburton County.

Mrs. Bea Taylor was appointed director in charge of Fair Building Exhibits. Entertainment for the fair was discussed and it was decided to try for one group or an

alternate was given. More about that later.

The Rules and Revision Committee will meet this Wednesday evening with representatives from all groups of convenors and committees.

A new platform stage is badly needed and it was decided to get one, also benches or bleachers. Other convenors needed at once are parade chairman and publicity chairman.

As I said this is the only Haliburton Fair so you help is needed to keep us on the map. It isn't my fair or your fair, it is our fair, so come help.

Do you know what "our" means? It is belonging to us; that means you as well as me, so the County Fair is for all of us, not just the people of Minden, but the people of the whole of Haliburton County. Sure you have other meetings in your own part of the county, but you only have one county fair, so let us all forget that you live there and I live here, and show that we are united in our efforts.

You know, I am rather sick of all this business of mine or yours. We are not that large that we can divide; so let us close ranks and have one big thing we can make a success of together.

Adios and take care now.

Gooderham News

By Velma MacDuff

Mrs. Jackie Greenwood and baby of Mount Albert were visiting with Shelly and Jim Greenwood last week.

Mr. and Mrs. Norval Graham visited Dorothy's sister in the Manitoulin Islands last week.

Mr. and Mrs. Larry Hunter and boys have gone to Florida

for a week or so. Have a nice holiday, folks!

Mr. and Mrs. Ken Gill went to Peterborough to visit their uncle, Bruce Dewey, who is a patient at St. Joseph's hospital.

Mr. and Mrs. Dan Dewey, were in Peterborough visiting relatives who are in the

hospital.

Mrs. Fred MacDuff is in St. Joseph's hospital where she underwent surgery and is doing fine. We hope to see you home very soon, Nellie.

Mr. and Mrs. Ross MacDuff of Kincardine were home visiting their father, Mr. Fred MacDuff.

Mr. and Mrs. Murray Richardson were home visiting their aunt, Mrs. Susie Madill over the weekend.

Miss Betty Webster of Orillia was home visiting her parents, Mr. and Mrs. Ken

Webster, over the weekend.

The Glamorgan Parks and Recreation Board are holding a skate-a-thon to raise money for the park fund. It will be held from 2 to 4 p.m. on March 25 at the Wilberforce arena. The ice time is going to be donated by the Monmouth Recreation Committee.

Mr. and Mrs. Dennis Paul and children were home visiting their parents, Mr. and Mrs. Albert MacDuff over the weekend.

Dorset News

by Phyllis Briscoe

"Budgeting is telling your dollars where to go instead of asking them where they went."

A belated report on the ice sculpturing contest put on in February by the Dorset Lions Club. We were sorry that there were no individual entries but I guess none of the youngsters had the artistic urge to do something on their own. The prizes all went to the various grades at the Dorset Elementary School. The first prize for a green alligator went to Kindergarten and grades one and two, the second prize for a polar bear, to grades three and four and third prize to grades six, seven and eight, for the creation of a turtle. The bonus prize for best all round effort went to Kindergarten and grades one and two.

The community was saddened to learn of the death of Harley Neilson last week in Florida. Harley's parents came to Dorset early in the century and built a summer home. Since that time the various members of the family have spent a great deal of time here and have been considered part of the community. Deep sympathy is

extended to Harley's family.

The Women's World Day of Prayer was held in the Dorset Anglican Church on Friday. The speaker was Miss Joyce Troyer who gave a very interesting and inspirational address on spiritual growth which was enjoyed by those attending.

George Hamilton, Director of the Leslie Frost Centre of Natural Resources on Hwy. 35 just south of Dorset, addressed the seniors group at their last meeting. He gave a very interesting discourse on the history of the centre since its inception as the Forest Ranger School back in the forties. Punctuated with colorful slides of the area and activities carried on there, he explained the operation of the centre as it is operated at the present time. It was a very informative and interesting talk and enjoyed by one and all.

For those of us who were acquainted with the Huntsville surgeon, Dr. Robertson, it was sad news when we learned of his passing. He will be greatly missed and we extend sympathy to his family.

Guild of Fine Arts News

by Carole McLean

So you think you're a potter, eh?

Well, for those of us who attended the three-day workshop conducted by Bob Kavanaugh, at the School of Fine Arts, we discovered exactly what being a professional meant. It means devoting 24 hours a day, seven days a week, in experimentation to perfect your craft, and then being able to project your findings as a teacher to others who are eager and willing to learn.

Bob and his family reside in Lakefield, Ontario, where he operates his studio and business. A self-taught potter, Bob's skill is evident in the methods he has devised to make his work unique and recognizable. Working in slips (oxide coloured clays), he applies his designs to damp pots and then applying an opaque glaze, to the bisqued piece, fires them in a reduction kiln. The resulting piece is one of unique beauty as the coloured slips break through the glaze in a breathtaking array of colour.

The three days certainly weren't long enough for all of us to benefit fully from his knowledge, but his patience and methods of imparting his craft, compensated for the shortness of time.

Being the only beginner in a group of approximately 12 students, my fondest memories are those of Mr. Kavanaugh making the rounds of the individual potters and advising each one on how to correct or improve upon their effort, but when he would finally arrive at my location his attitude would become slightly humorous. Help, he did, correct, most definitely, then smile kindly and suggest I begin again.

At the end of the three days, I was pulling perfect pots - unfortunately they were only imaginary, and happened at night when I was dreaming. He assured me however that with perseverance and patience, it would one day happen in class. I think I'll take the next workshop and with any luck at all

Mr. Kavanaugh will be there to witness my victory.

Ontario Craft Council

On Saturday morning, six local artisans gathered at Del Hubbert's to have examples of their craft photographed for the Ontario Craft Council's Central Regional Exhibition in Barrie, Ontario. The photographs will be forwarded to Georgian College for preliminary judging, and if deemed worthy the crafts person will then be asked to send along the chosen piece of artwork for the final judging. We will keep you informed as to the outcome of our endeavours.

Weavers Group

The next meeting of this group will be held the second Tuesday of this month at 7:30 in the evening. If you are an interested weaver and would like to attend, please feel free to do so.

Rug Hookers Group

When will that beautifully coloured car sitting on the ice surface of Head Lake disappear?

Well! With this thaw now in progress, the chances seem slim indeed that it will last too much longer. So get your tickets now from any member of the Guild of Fine Arts. Just fill in the time you think it should go and win yourself \$50.00. It's all for a good cause, so act now.

Carnarvon News

by Yvonne Penney

Friends of Oscar Sisson will be glad to hear he is home after a week's stay at Minden Hospital and seems to be feeling much better.

Donna Thomas, who has been burdened with a cast on her leg from a knee operation, has had her cast removed and soon will be skipping and running again.

I attended the World Day of Prayer service at Eagle Lake last Friday along with several others from Carnarvon. It was certainly a beautiful service. June Devolin of Haliburton is an excellent speaker and we were also favoured with several solos by Ruth Pogue of Kennis Lake. The service was well attended as it was a lovely sunny day.

There weren't many empty seats at the Beaver Theatre in Minden last Friday night - The Wilderness Family - Part 2 was on the screen and it was

an enjoyable family movie. We need a family movie like this at least once a month. Also, students would like to see a student rate introduced somewhere between the child and adult rate.

Lloyd Harrison of Toronto has spent the last week in the area visiting his many relatives and friends. Lloyd had a serious illness and operation in November but is looking well and tells me he is about to return to work.

Nice to see Al and Lil Rawlins and Les and Frank Clark back from their holiday in the sunny south. Spring must be on the way.

Dale and Wayne Toye and girls spent this past weekend in Oshawa with her sister.

I hear a few people talking about having water in their basements due to the mild and rainy weather we've been having. This is not pleasant but the rain is certainly

reducing the size of the snowbanks and makes it much easier to see when pulling out of driveways."

The students at Archie Stouffer Elementary School are busy this week writing their second term exams and will also be looking forward to their March break coming up in a week or so.

Tory Hill News

by Gloria Billings

Mr. Gordon Bryan, who is attending welding courses in Peterborough, was at his home over the weekend.

Congratulations to the Wilberforce Minor Hockey teams who won trophies last week in the tournament.

Miss Lyn Finlay and two girlfriends of Barrie were visiting at home with her parents, Mr. and Mrs. D. Finlay Jr.

Sorry to hear Mrs. Clem Boyd has been on the sick list also, Mr. Morgan Kemmerer who is in hospital.

Mr. and Mrs. Arnold Stamp attended the wedding in Cobourg of Stan Wollacott.

Home for the weekend with her parents was Miss Nancy Anderson.

Mr. Ron Dunn of Toronto spent a couple of days with Mr. and Mrs. Clem Boyd.

Visiting the village over the weekend was Rick Reil of Lindsay and Brady Major of Hamilton. Returning to Hamilton was Steve Major.

There sounds like a hint of spring in the air after watching pictures of a flock of robins near Peterborough on T.V. last week.

I sure hope the weatherman cooperates for the skidoo rally coming up Saturday.

Mr. Dale McCrea is pres-

ently holidaying in the sunny south in Florida. Hope the weather is nice for you Dale.

The Double's Club met last Saturday evening at the home of Ken and Joan Noble.

Devotions, business and pictures of Joan and Ken's west coast holiday last year were enjoyed. Lunch was served.

Mr. and Mrs. John Noble were so happy to have as their guest recently, their granddaughter and her husband from New Brunswick.

Mrs. Pauline Hubbard has been enjoying a few days with relatives in St. Catharines, also Madeline and Marilyn visited family on the weekend in St. Catharines.

Maple Lake News

by Elaine Barjarow

Jack and Shirley Harrison spent the weekend in Toronto. While there they went to the races and also had dinner at the Seaway Hotel.

Grace and Charlie Morrison visited with Percy and Carrie Drysdale in Minden on Sunday. They also called on Annie Fountain who is in the senior citizens' home. They report that she seemed to be feeling very good that day.

Mike and Mary Simons and girls visited Neilson, Sheila and Jerry Griffen on Saturday. Little Jerry went home with them to spend the night.

I understand one of our local fishermen got a big lake trout the other day. It was caught in Maple Lake and weighed over 14 pounds.

It is nice to hear Lloyd Harrison of Toronto is feeling well enough to drive up to Maple Lake to spend a few days with friends and relatives.

Mr. and Mrs. Noel Griffin left last Friday for a vacation in New Mexico.

Mrs. Shirley Adams is visiting in Oshawa for a few days this week.

Mr. Tim Dubush and brother of Toronto visited with Mr. and Mrs. Jack Barry one day last week.

Mr. and Mrs. Brant Stamp, Mr. and Mrs. Emile Duchene of Haliburton, Mr. and Mrs. Harold Stanley of Scarborough, Mr. and Mrs. Bert McMahon of Finch and Mr. and Mrs. Lyle Merkley of Chesterville have returned from a very pleasant vacation in Jamaica.

Kathy Castle and girls came up Thursday to spend a few days with her parents, on Friday. Larry and Robert Castle came up for the weekend.

Cont'd. page 12

West Guilford News

by Jackie Barry

Mr. Garry Barry of Toronto visited with his parents Mr. and Mrs. Jack Barry over the weekend.

Mr. Frank Howe and Mr. Ray Sisson are home from hospital.

The winners at the card party, held last Thursday were: ladies high - Amy Wensley; ladies low - Ev Stata; men's high - Dean Stephenson; men's low, Ted Duncan; most lone hands - Minnie Stephenson; and door prize winner was Loretta Henderson. The next party is March 15.

The Snow Shuffle held at the centre on Saturday, was a

roaring success. Everyone had a very good time, and a lot of them want to do this again. The committee would like to thank all the workers and participants, who helped make it the good time it was.

Mrs. Alice Barnum is home from hospital, and Frank McIntyre is now in Haliburton hospital.

Weekend visitors with Mr. and Mrs. Keith Sisson were Mr. and Mrs. Ken Sheridan and boys of Downsview and Mr. and Mrs. Murray Scott of Huntsville.

Miss Elechia Barry visited over Sunday, with Miss Lisa Williams in Haliburton.

Coboconk News

by Shiela Lake

The annual World Day of Prayer was held Friday, March 2 in Knox United Church with over 50 ladies in attendance and with representatives from all our local churches; St. Margaret's Catholic Church, Knox United, the Anglican Church, Trinity Full Gospel Church and Faith Tabernacle. This year's service, prepared by students in the Pan-African Leadership course had as its theme "Spiritual Growth".

Mrs. Christina Kerr, a United Church representative led in the opening exercises, and opening prayer.

The "Growth in Knowledge" section with scripture from second Peter, Chap. 1, verses 2 - 8, was taken by St. Margaret's Church ladies.

The "Growth in Faith" was taken from scriptures found in Ephesians 2, verses 4 - 10 and taken by Anglican ladies.

The "Growth in Hope" from scriptures taken from Ephesians Chap. 1, verses 11 - 23, and taken by ladies from Faith Tabernacle. The "Growth in Love" was taken from first Corinthians, Chap. 13 with meditation based on Hebrews Chap. 11 and taken by Trinity Full Gospel Church ladies.

Following the service, tea, coffee, and goodies were served in the church hall. The hall, by the way was all lovely and pretty with the St. Patrick's decorations, courtesy of Chris Kerr and helpers.

On Wednesday afternoon, March 14, the Knox United Church are holding a St. Patrick's tea, so we hope you'll remember the date - and see you there.

Mrs. Grant Benson returned home from Ross Memorial Hospital a couple of days ago. Lorne Farrow is still a patient in St. Joseph's hospital in Peterborough, where he is undergoing treatment.

Do you ever look over the flyers sent out by real estate firms? On glancing over such a brochure I find the local mini-mall and laundromat business for sale. Isn't it something how people buy and sell and move about so much?

Robins are back and several sightings have been reported. How great to see the little puddles of water, the snow yielding to the warm rays of the sun!

Bexley Township Council held a regular council meeting in the council chambers, Coboconk on February 7, 1979 at 1 p.m.

Reeve E. A. Cameron presided with deputy-reeve J. A. Hannivan and councillors D. Michel, Wm. Downes and Mrs. J. Murray, president.

Douglas Michel presented a recreation committee report concerning an application for Young Canada Works program.

Mrs. Mary Wootton, John McDonald, George Shepherd Jr. and Mr. James Hopkins were appointed as members of the Recreation Committee subject to the legality of appointment.

John Bryant and Robert Cowan, Cowan Insurance Company, Princeton, Ontario attended the meeting to discuss Township of Bexley's insurance coverage.

Mrs. Beverly Bailey, Mr. Mullen and Mr. R. Swain representing Cambray Telephone Company attended the meeting regarding preparation of a bylaw by the Township of Bexley giving Cambray Telephone Company the same rights as Bell Telephone Company and the Ontario Hydro for the erection of poles.

A bylaw for Cambray Telephone Company will be prepared immediately.

The request of the Ministry of Transportation and Communications to have Part 1

and Part 5, Highway 48, Lot 7, Concession road closing will be carried out.

It was decided to purchase parts of Lots 35 and 36, North West Bay Range, Township of Bexley, Highway 48, District 7, for the storage of salt and sand.

Bexley will join the Rural Ontario Municipalities Association, council decided.

A donation will be made to the Salvation Army.

The dump site will be rented for another year, council agreed.

The clerk was instructed to advertise that dog tags must be purchased by March 31, 1979 from Township office or bylaw officer or owners will be penalized.

The council of Bexley will pay half of tuition fees for Chief Building Officer's course to be held in London, Ontario and authorized Mr. Bradley Bradamore, bylaw officer, to attend.

Full 1979 road subsidy was accepted from the Ministry of Transportation and Communications and an application will be made for the balance of 1978 road subsidy.

Bylaw 6-79 being bylaw to provide for expenditures on roads in the Township of Bexley was given its third reading and passed.

General accounts in the amount of \$8,656.99 and road accounts of \$3,071.79 were approved for payment.

Kinmount Klippings

by Fran Crawford

Hi folks. Well here we are the first week of March. The thaw has really stayed with us. The snow is going down and everyone is thinking spring. March has come in like a lamb. How will it go out?

Mrs. Violet Schroter has been really sick and under doctor's care in Lindsay. Arnold was sick but is feeling much better now and back to work.

In Wintario last Thursday, Barb Fountain won \$10.00 with three fours. Mrs. Nora Crego won a free book of tickets with the windfall number 67.

Thursday night Kinmount hockey team lost to Coboconk with 13 - 3 score. Too bad, boys.

I didn't hear of any winners at Bingo, Friday night, so this week will be 53 numbers called for \$130.00 jackpot.

Anna Marie Bacon won \$20.50 in the Legion 50-50 draw Saturday night and John Windrum won the \$20.00 hockey pool. Congratulations.

Mr. P. J. Mullin of Toronto spent the weekend with the "Joe" Crego family.

Harold Handy and Mayda of Barrie were visiting Saturday and Sunday.

The chicken pox are still on the go. Scott Nesbitt was out of school two weeks ago and Wyatt Nesbitt last week. This week Tami Pritchard and Jody Hancock are off my bus with them.

Mr. Kevin Mills and Miss Anna Marie Bacon spent the weekend with Betty Bacon, Marshal and Mervin.

Galway-Cavendish are having a St. Patrick's Dance on Saturday, March 17 at 8 p.m. til 1 a.m. There will be refreshments, buffet and prizes. Admission \$4.00 per person.

The public speaking contest sponsored by Royal Canadian Legion Branch 441 is at 7:30 p.m. Monday, March 5 at the Legion Hall. I will have the winners in next week.

Next Wednesday, March 14, will be the regular meeting of ladies auxiliary to Branch 441.

Bye for this week, the wind is blowing and I hear a crow cawing.

Recycle it!

by Jane Selbie

Do you have an old tablecloth that's lost its charm on the table? Linen ones are especially good when cut up and hemmed to make dish towels.

Tired towels with worn centers may still have life around the edges - cut out corner squares and you've got some facecloths or dish cloths when hemmed. If they are too far gone, how about innards for a nice thick pot holder? Or an odd bit of towelling might be just enough to make a bib for the little one.

These ideas may strike you as economy in the extreme but they make sense when you think that the minimum you would pay for four linen cloths would be at least \$8.00. Face cloths, other than thin sale ones average \$1.50 to \$2.00 each. So a penny saved, is a penny earned.

Don't forget to submit your hints to this paper. We will publish as many as we can and each month a winner will be announced winning the prize of \$5.00.

Municipality of
Dysart et al

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BYLAW OF THE MUNICIPALITY OF DYSART ET AL TO STOP UP, CLOSE AND CONVEY A PORTION OF SULLIVAN DRIVE ACCORDING TO REGISTERED PLAN 350, BEING PART OF LOT 12, CONCESSIONS 3 AND 4, IN THE TOWNSHIP OF HARBURN, PROVISIONAL COUNTY OF HALIBURTON, DESIGNATED AS PARTS 1, 2, 3 AND 4 ON REFERENCE PLAN 19R-1671.

NOTICE IS HEREBY GIVEN, pursuant to Chapter 284, Section 443 of The Municipal Act, that the Township Council of the Municipality of Dysart et al, proposes to consider and, if deemed advisable, to pass at its regular meeting to be held at the Council Chambers, Haliburton, Ontario, on Monday, March 12, 1979 a Bylaw to stop up, close and convey the following:

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being all that part of Sullivan Drive on Registered Plan 350, in the Township of Harburn, Provisional County of Haliburton, designated as Parts 1, 2, 3 and 4 on a Plan of Survey deposited in the Registry Office for the Registry Division of Haliburton as Plan 19R-1671. The Plan of Survey is by H. Curry Bishop, O.L.S., dated June 30, 1978, and is available for inspection at the Municipality of Dysart et al Office in Haliburton, Ontario.

AND TAKE FURTHER NOTICE that before passing the said Bylaw at its meeting to be held at the time and place above mentioned the Township Council of the Municipality of Dysart et al shall then and there hear in person or by his Counsel, Solicitor or Agent, any person who claims that his land will be affected by the said Bylaw and who applies to be heard.

DATED AT HALIBURTON, ONTARIO this 5th day of February 1979.

Wayne B. Wood,
Clerk-Administrator
AMCT

The Corporation of
The United Townships of Dysart et al

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BYLAW OF THE CORPORATION OF THE UNITED TOWNSHIPS OF DYSART ET AL TO STOP UP, CLOSE AND CONVEY THAT PORTION OF THE FORMERLY TRAVELLED EAST KENNISIS DRIVE SITUATE IN REGISTERED PLAN 402, IN THE TOWNSHIP OF HAVELOCK.

NOTICE IS HEREBY GIVEN, pursuant to Chapter 284, Sec. 443 of The Municipal Act, R.S., 1970, as amended, that the Township Council of the Corporation of the United Townships of Dysart et al proposes to consider and if deemed advisable, to pass at its regular meeting to be held at the Council Chambers, Haliburton, Ontario, on Monday, April 9th, 1979, at 9:00 a.m., a Bylaw to Stop Up, Close and Convey the following:

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the Township of Havelock, in the Provisional County of Haliburton, being composed of part of East Kennesis Drive, Registered Plan 402, in the said township, and which said parcel or tract of land is more particularly described as follows:

PREMISING that the bearings herein are astronomic and derived from the North Easterly limit of Part 19, Plan 19R-207, having an assumed bearing of North 39 degrees 00 minutes West.

COMMENCING at a point which is distant 69.48 feet measured on a course of South 67 degrees 30 minutes East from an iron bar which is distant 2344.04 feet measured on a course of South 11 degrees 30 minutes 57 seconds West from the North Easterly angle of the said Lot 18;

THENCE North 40 degrees 42 minutes East, 193.99 feet to an iron bar; THENCE North Easterly along a curve to the right having a radius of 861.51 feet, an arc distance of 208.49 feet and having a chord equivalent of 207.98 feet when measured on a course of North 22 degrees 11 minutes 51 seconds East to an iron bar;

THENCE South 40 degrees 42 minutes West, 412.99 feet to an iron bar; THENCE South 67 degrees 30 minutes East, 69.48 feet to the Point of Commencement.

WHICH SAID parcel or tract of land may be further illustrated, shown outlined red on a plan by Paul Wilson, O.L.S., dated November 1, 1977, and which said plan of survey may be examined at the Municipal Office of the United Townships of Dysart et al, at Haliburton, Ontario;

AND FURTHER TAKE NOTICE that before passing the said Bylaw at its meeting to be held at the time and place above mentioned the Township Council of The Corporation of the United Townships of Dysart et al shall then and there hear in person, or by his Counsel, Solicitor or Agent, any person who claims that his land will be affected by the said Bylaw and who applies to be heard.

DATED AT the Municipal Office of The Corporation of the United Townships of Dysart et al, this 14th day of February, 1979.

Wayne B. Wood,
Clerk of The Corporation of
the United Townships of Dysart et al

27. THANK YOU

Holland: The family of the late Gladys Holland, wish to express their sincere thanks to friends, relatives and neighbours who were so kind with floral tributes, donations to the various organizations and to those who sent food to the house. Also, special thanks to doctors and staff at Extendercare, Rev. Nicholson and Gordon Monk of the Welch Funeral Home.

Clifford Holland & family

We extend a very hearty thank you to the many people who contributed to the successful 3rd anniversary party at Extendercare, Haliburton. To Mrs. Amyong with her gymnastics group, Earl Cooper and all the Scottish Dancers, and of course, to Al Blanchard and his boys who are always greatly appreciated by the residents. Finally a thank you to all the volunteers who assisted the activity and kitchen department and the residents. Thank you one and all.

CB/7

We would like to thank all our relatives, neighbours and friends for the kind words and deeds during our sorrow of the loss of a dear father and husband. A special thanks to Gordon Monk and Rev. Nicholson.
Betty, Stan, and Bill
Holland 7

27. THANK YOU

I would like to extend my sincere thanks to Dr. Hartwick, nurses and staff of Red Cross Hospital, Haliburton for their kind efficient care while I was a patient there. Thanks to my friends and relatives for flowers, cards and phone calls.

Thank you,
Vera Bagshaw

31. DEATH NOTICE

PLEWMAN - Ethel Amelia
At the Peterborough Civic Hospital on Sunday, March the 4th, 1979, in her 87th year.
Beloved wife of Charles F. Plewman of Haliburton. (formerly of Toronto), dear mother of Margaret (Mrs. G. S. MacPherson), Hazel (Mrs. C.A. Appleton), Betty-Anne (Mrs. E. W. Brohm), all of Peterborough; loving grandmother of five grandchildren and two great grandchildren. Dear sister of Hazel LeDrew, Victor and George Payne. Rested at the Morley S. Bedford Funeral Home, 159 Eglinton Ave. W. in Toronto after 2 p.m. Tuesday, Funeral service was held on Wednesday, March 7 at 11 a.m. Interment at Mount Pleasant Cemetery. Memorial donations to the Mentally Retarded Association would be appreciated. CA/7

AT REST
At his residence, Prince Street, Minden, on Monday, March 5, 1979

Arnold Coulter
In his 72nd year.

Beloved husband of Maud Kernohan; dear father of Gala (Mrs. Bud Stamp) of Minden, Adele (Mrs. Ray Rivers) of Downsview and predeceased by Eric; loving grandfather of Jill, Jeff and Jason Stamp and Trevor and Daryl Rivers; dear brother of Rena, Wilma, Stella and Clara, predeceased by Doris and Bert.

Funeral Service

Rested at the Funeral Chapel of John Welch & Son Ltd., Minden, after 2:00 p.m. Tuesday, for funeral service in the Chapel on Wednesday, March 7, at 1:30 p.m. Spring interment at Minden Cemetery.

32. IN MEMORIAM

HEWITT, Grant - In loving memory of a dear husband and father who passed away March 12, 1975.

A million times we've needed you
A million times we've cried
If love could have saved you dear
You never would have died.
Things we feel most deeply
Are the hardest things to say
Our dearest we love you
In a very special way.
If we could have one lifetime wish
One dream that could come true
We'd pray to God with all our hearts
For yesterday and you.
Sadly missed by wife, Shirley Gail and Dean. 7

Along the Trails

from page 6
took to the Gelert Trail instead.
We lunched at Gelert Gardens and went on to Prentice Roads to have a broken ski replaced on Scott's '74 Olympic. While there, Steve side-tracked the Elan he was driving and picked up a nearly new citation!
Gassed up at McKnight's, we headed North out of Minden to pick up the new trail to Baysville. We were running late by this time we were more than pleased to find the trail in good condition. We made good time until we ran out of H.C.S.A. grooming. A section of Dorset road southwest of Dorset, with several unmarked intersections was very confusing. After two wrong turns we finally found our way to the Long Lake Hunt Club and Malcolm Scott, Mayor of Lake of Bays, who led us to his house and replenished our dwindling fuel. From there to Baysville we deserted the trail in favour of a run down Rili Lake and the road which shortened the miles.
From Baysville north, the Port Sydney Club's #402 was very rough. Heavy traffic on the soft surface had really taken its toll and apparently the trail had not been groomed recently. Entering #404 we found the conditions improved dramatically. In the darkness, however, we took a wrong turn somewhere and made an unnecessary loop of five or six miles delaying our arrival even more. It was about ten o'clock when we rolled into the lodge to find that there was a hot supper waiting. We were famished.
It was too late and we were too tired to think of anything but bed. Our cottage was large and comfortable and we rested well. After a delicious breakfast at 7:30 we were ready to roll for home by eight the next morning. It had frozen well overnight, so this time we headed straight out #404 to Lake of Bays and made a fast run home. I parted with the group at Minden after pointing out a practical shortcut to Burnt River and their home trails.
Working out the mileage later I found that the distance from my home to Devine Lake is about 90 by trail and 82 by the lakes.
It was a good weekend ride.

Maple Lake News

from page 10
Frank Barjarow and Stuart along with Larry and Robert Castle went on a fishing trip to North Bay on Saturday.
Friends calling on Charles Fader last week were Rev. Miller, Earl Redner, Grace and Charlie Morrison, Jack and Jason Harrison, Gertie Upton and Lloyd Harrison.
Friends of Lynn Frankland will be glad to hear that she has had her operation and is out of Intensive Care and feeling a bit better.
